MADERO'S BROTHER AND COMPANION RUSHED ON BOARD AMERICAN WAR VESSEL AT VERA CRUZ.

WILSON CALMLY WAITS

Still Waiting Developments of the Mexican Congress and Their Possible Action As to English Concessions.

[BY ASSOCIATED PRESS.] Washington, Nov. 21.—Convening of the Mexican congress and Huerta's reading of his message are regarded by officials here as merely carrying the situation one step further along and as not events to be forecast in immediate steps by the United States. The view here is that each day adds to what administration officials regard as the steady and gradual disintegration of the Huerta regime.

Will Be Invalid. The official view is that should the congress act on English oil concessions, pending, such acts will be regarded as invalid, not only by the United States, but by Great Britain. A perfect understanding is believed to have been reached between London and Washington.

No Consequence. Inasmuch as foreign governments generally have signified their assent to the American policy, as thus far outlined, it is being taken for granted here that so far the nations of the world are concerned, the new Mexican congress may legislate as it will, but its acts will not have international sanction as the constituted law-making body of the republic.

Structure Confidence. Such a favorable attitude by other nations generally strengthens the confidence of the Washington government that the power of the Huerta regime is crumbling.

No Cabinet Meeting. There was no cabinet meeting today, but the president saw Secretaries Garrison and Bryan and Acting Secretary Roosevelt of the navy. Dispatches received from Rear Admiral Fletcher were discussed, but the contents were not divulged.

Later it became known that Admiral Fletcher's dispatch concerned asylum for Evaristo and Daniel Madero, and some of his followers who have been taken to Vera Cruz. The president and have applied to Consul Canada for protection. It was indicated that they probably would be taken aboard an American warship at Vera Cruz.

Request Refused. Vera Cruz, Nov. 21.—A request for the surrender of Evaristo and Daniel Madero, to the local authorities, was made upon Consul William W. Canada today by Col. Eugenio Guipierrez, aide of Gen. Gustavo A. Madero, commander of Vera Cruz. Mr. Canada promptly refused to comply with the request.

Sought Asylum. After their release yesterday from the fortress of San Juan, the two Maderos sought asylum in the American consulate where they were guarded in strict privacy until this morning.

At about nine o'clock the two fugitives were escorted only by John Lind, personal representative of President Wilson and William W. Canada, United States consul, left the consulate building and walked across the street to the American fleet, opposite where lay a steam launch with an armed crew of blue jackets from the battleship Rhode Island.

Safe on Board. The refugees stepped on board the launch which at once started off to the flagship. As they were bidding good-bye to Mr. Lind, Evaristo Madero exclaimed: "Only God can save Mexico, to which his brother, Don Evaristo, has fled." Evaristo replied: "Yes, that is true."

Were Followed. The party was followed by the launch at a respectful distance by a solitary detective who had been watching the consulate all night.

Charges Made. Commenting on the situation in an editorial today El Pais says: "Does President Woodrow Wilson not know or does he not care to know that in history and before the civilized world will be charged with having sworn the charges which humanly will make against Francisco Villa?"

Tells of Crimes. The article then recapitulates the crimes of murder and pillage attributed to Villa, the rebel leader, and of the revolution triumph Villa will become vice president, minister of war or some other functionary by virtue of the valuable services he has rendered to Venustiano Carranza, constitutional leader.

On Board Louisiana. Evaristo and Daniel Madero, two relatives of the late president of Mexico, were taken today on board the American flagship from the consulate where they were held last night. The two Maderos took shelter in the American consulate following their release from prison yesterday on bail. Consul Canada asked Washington for instructions and was ordered to afford them.

After the consul's refusal today to deliver them up, it was reported that veiled threats had been made to take the refugees by force.

Ready to Act. In anticipation of any such attempt a steam launch from the American battleship Rhode Island lay all morning off the sea wall opposite the consulate with an armed crew of blue jackets on board ready to come ashore at a moment's notice.

The refugees were held in the consulate without being permitted to communicate with anybody. Not even their wives were allowed to visit them. John Lind, Fletcher, commander of the American fleet, exchanged numerous dispatches with Washington.

Had Two Conferences. Mexico City, Nov. 21.—The fact that Nelson O'Shaughnessy, American charge d'affaires, has had two conferences with the Mexican minister of foreign affairs during the past few days, became known here today. The exact character of these meetings and the nature of the conversation are not known, but it is evident that their net result did not change the situation.

MAY INVESTIGATE COLD STORAGE MEN

Attorney McReynolds Considering Pushing Trust Case Against Storage Combination for Violations.

[BY ASSOCIATED PRESS.] Washington, Nov. 21.—Attorney General McReynolds is considering an investigation of an alleged cold storage combination which he believed may be responsible for the high price of eggs and poultry.

Charges have also reached the department that cold storage concerns in some instances sell cold storage products for fresh ones. Such transactions violate the pure food law.

LEADERS IN SENATE AGREE ON SESSION

Senators Will Have No Chance to Obtain Mileage Because of No Recess in December.

[BY ASSOCIATED PRESS.] Washington, Nov. 21.—When the senate assembles for its last meeting of the special session it will meet at 11 o'clock on the morning of December 1, and continue until noon, the hour the regular session begins. That way there can be no recess—not even constructively—and no fight over the much mooted question of mileage. This was agreed upon today by the leaders of the senate.

NEW PLUMBING LAW SUBJECT OF RULING

Firms Holding Contractor's License Must Take Out Master Plumber License Says Owen.

[SPECIAL TO THE GAZETTE.] Madison, Wis., Nov. 21.—Each member of a firm holding a plumbing contractor's license must take out a master plumber's license if he intends to engage in the work of superintending plumbing, according to the opinion of Attorney General Walter C. Owen. The question was asked by Dr. C. A. Harper, state health officer. In further construing the provisions of the plumbing law the attorney general holds that the non-use of a license is not ground for its revocation. The opinion points out the grounds upon which the state board of health may revoke licenses and concludes that the fact that the holder of a license does not use it does not constitute a violation within the law. He also states that a plumber must renew his license every year. Permitting a license to lapse for a time necessitates "such person to pass an examination and pay his initial fee before a license can be granted."

TARIFF TO CLOSE MADISON FACTORY

Democratic Tariff Rates Forces Madison Officials to Close Big Sugar Factory.

[BY ASSOCIATED PRESS.] Madison, Nov. 21.—Officials of the United States Sugar Company, which operates a large beet sugar plant here, admitted today that the permanent closing of the factory has been under consideration as a result of tariff readjustment.

"People laughed at us when during the tariff debate we told them the new rate would ruin our business," said the executive clerk of the factory, who also stated that developments are demonstrating.

ISAAC STEPHENSON DEFENDANT IN SUIT

Wisconsin Senator Is Sued for Fortune by Former Executive Clerk of Senate.

[BY ASSOCIATED PRESS.] Washington, Nov. 21.—Senator Isaac Stephenson of Wisconsin, was sued for \$40,000 in the district court here today by Rodney Sackett, a former executive clerk of the senate who alleges that Stephenson employed him to settle claims arising from his campaign of 1908.

RUSSIA HAS NOT MADE ANSWER TO INVITATION

[BY ASSOCIATED PRESS.] St. Petersburg, Russia, Nov. 21.—The Russian foreign office and admiralty have agreed on the reply to be made to the American invitation to participate in the naval review to be held in Hampton Roads in celebration of the opening of the Panama canal. Russia will undoubtedly follow the example of the other powers and send a representative fleet.

STATE REFORMATORY PROBE IS NOT YET COMPLETED

[SPECIAL TO THE GAZETTE.] Madison, Wis., Nov. 21.—The work of investigating the state reformatory at Green Bay has not been concluded and further evidence will be taken, says Ralph B. Smith, president of the state board of control. Mr. Smith showed interest in the statement of R. E. Cowie, a former member of the board, to the effect that the investigation was necessary, but declined to make a comment further than that the results of the investigation would be given to the public as soon as the probe was completed.

IMPERIAL LIMITED REPORTED WRECKED

One Man Dead and Rest of Train Crew and Passengers Have Narrow Escapes.

[BY ASSOCIATED PRESS.] Winnipeg, Man., Nov. 21.—Fireman P. O'Connor of Schreiber, Ont., was drowned and other crew members and passengers narrowly escaped death shortly after 2 o'clock this morning when the first section of the Canadian Pacific Railroad Imperial Limited, west bound from Montreal to Vancouver was wrecked near Caldwell, 175 miles east of Port William, Ont.

Severe Storm. A severe storm whipped across the north shore of Lake Superior all night, carrying down poles and telegraph wires for many miles east of White River, Ont. For this reason Canadian Pacific railroad officials experienced difficulty in communicating with trainmen at the point where the wreck occurred.

Jumped Tracks. The wreck was caused by the engine jumping the track at a point where the road skirts Lake Superior, on a level of the water. The engine plunged into the lake, carrying Fireman O'Connor to his death. The engineer escaped by jumping from the window of his cab, falling into the water and diving. A heavily loaded Pullman remained on top of the grade.

Rock on Track. Montreal, Nov. 21.—Dispatches reaching the Canadian Pacific offices here today said that a rock on the track caused the locomotive of train No. 1 to plunge into Lake Superior near Hagar's, Ont. The locomotive was wrecked. No one else was hurt.

TWO YOUTHS SAVE TRAIN FROM WRECK

Two Eight Year Old Boys Flag Fast Mail Train With Coats from Derailment at Camp Douglas.

[BY ASSOCIATED PRESS.] Camp Douglas, Nov. 21.—Running better than sixty miles an hour to make up lost time, train No. 55 known as the last mail on the C. M. & St. Paul road, carrying a heavy passenger list, was saved from wreck and possible death to the passengers last night by Will Hawkins, and George Kerr, boys 8 years old, near this village. The boys found a broken rail at a place where the embankment is high and by waving their coats succeeded in attracting the attention of the engineer just in time.

Conductor Milo Shackley reported the boys' act to the division offices for appropriate action. At the scene of the averted wreck grateful passengers were disposed to take up a collection for the lads, but they, abashed by so much notice, disappeared in the woods.

WILL PUT AN END TO DESIGN PIRACY

Methods Discussed at an Important Conference of Manufacturers and Importers.

[SPECIAL TO THE GAZETTE.] New York, Nov. 21.—Plans to put an end to the piracy of trademarks and designs were discussed at an important conference of representative manufacturers, wholesalers and importers, which met at the Waldorf-Astoria hotel here today. The present method of registering commercial designs was declared to be cumbersome and expensive, while at the same time affording inadequate protection to the owners. As a remedy, the conference will be urged to pass a law providing for the establishment of a registration bureau in which the designs may be filed by their originators at a low expense. The idea on which the proposed measure will be based will do away with much of the time and expense consumed now in protecting designs. There will be no research preliminary to granting certificates of registration. The work being done afterward in case of suit for infringement. Registration will not protect the design beyond giving its owner definite proof of priority, which will, of course, be the deciding point in litigation arising from alleged infringement.

SIGNIFICANT RECLAMATION CONFERENCE IN SIOUX CITY

[SPECIAL TO THE GAZETTE.] Sioux City, Ia., Nov. 21.—A reorganization of the Upper Missouri River Improvement Association, so that in future its work may be conducted on broader lines than the past, is the object of an important conference which began here today and will continue over tomorrow. Heretofore the chief aim of the association has been to secure the interests of the river for navigation purposes. It is now proposed to direct the efforts of the organization towards reclamation projects that will benefit the entire country tributary to the upper Missouri while at the same time affording the desired flood protection.

DAUGHTERS OF CONFEDERACY MAKE TRIP TO PANAMA

[SPECIAL TO THE GAZETTE.] Colon, Nov. 21.—After a delightful voyage from New Orleans 150 members of the Daughters of the Confederacy arrived here today on the chartered steamer Abnangara. The daughters were welcomed by a delegation of prominent women of Panama. On their arrival in the capital tomorrow the visitors will be received by President Porras. After the chief of the delegation, Mrs. J. B. Jones, have been visited the party will embark for Port Limon, Costa Rica, from which point they will take the train for San Jose. A day will be spent in the inland capital of the Costa Rica republic.

IOWA COMMERCIAL CLUBS HOLD ANNUAL MEETING

[SPECIAL TO THE GAZETTE.] Mason City, Ia., Nov. 21.—The Iowa League of Commercial Clubs began its annual meeting here today, with delegates in attendance from Sioux City, Waterloo, Burlington, Council Bluffs, Clinton, Marshalltown and other leading cities of the state. The sessions will continue over tomorrow.

LA FOLLETTE WRITES REGARDING FUTURE REPUBLICAN PARTY

Senator in Predicting National Convention in 1914 Urges Positive Program of Radical Issues.

[SPECIAL TO THE GAZETTE.] Madison, Wis., Nov. 21.—"The meeting of the republican national committee to be held in Washington, December 16, it is expected, will result in the calling of an extraordinary national republican convention in 1914 to make preliminary plans for the regular nominating convention of 1916."

This is Senator La Follette's significant prediction made in his paper today in a signed editorial. Under the heading "What Republicans Must Do," he writes of past political history and tells what in his opinion are the best means of uniting republican divisions into organized strength.

Credit to Democrats. Incidentally Senator La Follette credits the democratic administration with "making a record for specific performance." He cited the new tariff law, which in spite of defects he says has meant revision downward. He also mentions the enactment of the cur-rency bill, which he says was "cordially commended, as is the coming trust investigation."

"No mere negative policy of criticism of the methods of obtaining the legislation nor of the legislation itself," he says, "is relied upon to reinstate the republican party in control of national administration."

Senator La Follette advocates change in the system of representation in the national convention. After reciting the history of the efforts to make this change at the Chicago convention, he continues:

"The extent and bitterness of the rivalry between Taft and Roosevelt and their struggle to get possession of each fraudulently credentialled delegates to control the convention and 'steam-roll' their nominations, gave wide publicity to the iniquity of the present system and created a demand for a change of basis of representation and change in the method of electing delegates which would make another such contest impossible and which would insure an honest convention and a majority nomination."

Might Correct Defects. "Doubtless an extraordinary convention, if held, will be instrumental in correcting these obvious faults in party procedure. But the rank and file of a united republican party will demand more of such a convention than a mere change in the rules of the game. They will demand assurance that the party is to keep step with the needs of the nation. The divided republicans can only believe in the sincerity of purpose and leadership of the organization."

Concluding, the senator says: "An extraordinary convention that is to arouse an enthusiasm among the seven million republicans, men and women, who have turned their allegiance to the party of Lincoln must forecast a program for the overthrow of the centralized executive government, more radical, more aggressive and more advanced than has been adopted by any party since the war."

ENGLISH MOB TAKES A QUICK VENGEANCE

Burning of Lumber Yards by Suffragettes Results in Their Rooms Being Wrecked.

[BY ASSOCIATED PRESS.] Oxford, Eng., Nov. 21.—Vengeance was promptly visited on the suffragettes, who early today set fire to a great lumber yard on the Thames, near Oxford.

While the lumber was still burning the officers of the suffragette women in this city were raided and wrecked by a mob. All the furniture and a large collection of suffrage literature were thrown into the streets.

The damage done by the lumber yards fire amounted to \$100,000. Post cards and placards left on the scene indicated that the blaze was set by a militant arson squad.

Inscriptions on the placard included "Send the Bill to Chancellor Lloyd George tonight."

"Democracy has never been a menace to property," a quotation from one of Lloyd George's speeches. Lloyd George is here today on a visit.

BIG MACARONI FACTORY BURNS ON LONG ISLAND

[BY ASSOCIATED PRESS.] Long Island City, Nov. 21.—Three hundred and fifty men arrived today were driven by fire today from a big macaroni factory. Two men were seriously injured. The damage was estimated at \$150,000. The fire started with an explosion of flour dust.

NEW COMMANDER WILL AID REBELS IN WAR

Soldier of Fortune Enlists Recruits to War Against Huerta From Chicago.

[BY ASSOCIATED PRESS.] Chicago, Nov. 21.—Gen. Leo Christman, soldier of fortune, has just completed a successful recruiting campaign here in behalf of Gen. Carranza, head of the constitutionalist forces in Mexico, it was learned today.

Christmas left for the border last night with some of his recruits. The other recruits follow him today, nineteen in all, it is said. Christman was liberally supplied with money. He is promising pay ranging from \$200 to \$500 a month, according to the experience and special abilities of the men enlisted, and bound his contract by payment of \$200 and \$300. Two of the recruits who will receive maximum salaries are expert telegraphers, and all have had some experience in warfare.

Funds for the recruiting campaign are said to have come from American capitalists whose important interests in Mexico have been seriously threatened by the disturbances of the last three years. Among the recruits it was reported that the capitalists subscribed one million dollars to the Carranza war chest.

ELECTRIC EMPLOYEES THREATEN WALK-OUT

Employees of General Electric Company Demand Reinstatement of Two Discharged Workmen.

[BY ASSOCIATED PRESS.] Schenectady, N. Y., Nov. 21.—Unless an adjustment of their grievances is made before night the 12,000 employees of the General Electric Company will go on strike. Officials of twenty-five unions embracing men and women in every department of the big plant, made this announcement early today. The workers demand that two discharged employees be reinstated.

WILL START DEBATE ON CURRENCY MONDAY

Chairman Owen to Make Opening Speech in Support of Administration Bill Before Senate.

Washington, Nov. 21.—Active debate on the currency committee bill will begin Monday in the senate when Chairman Owen of the banking committee will make the opening speech in support of the administration bill. The senate will meet Monday, Tuesday and Wednesday for currency discussion; adjourn over Thanksgiving day and Friday will probably adjourn Monday morning at 11 o'clock. At noon the special session will close and the regular session will begin.

WISCONSIN STUDENTS WILL STUDY SCHOOLS

Delegation of Students Arrive in Philadelphia to Establish Extension Bureau in East.

[BY ASSOCIATED PRESS.] Philadelphia, Pa., Nov. 21.—A large delegation of educators interested in the Wisconsin school extension education, arrived here today for the purpose of participating in the organization of a bureau of extension here to branch the schools and colleges of Pennsylvania and to extend the work to the people. The delegation was headed by Dr. Charles R. Van Hise, president of the University, Dean Lewis E. Raebler, extension division, University of Wisconsin, and Dr. Curtis, chief of the state legislative department, Wisconsin, and Dr. Lois Hinnall Matthews, dean of women, University of Wisconsin. The other members of the delegation came from different parts of the west, New York and Pennsylvania cities. A view of Philadelphia schools and industries took on the time of the visitors in the morning. Dr. Van Hise and Dr. Raebler will address a meeting in the interests of the extension movement.

JURY WILL DECIDE SANITY OF PRIEST

Trial of Hans Schmidt, Confessed Murderer of New York Girl, Begins Tuesday.

New York, Nov. 21.—The question whether Hans Schmidt was insane when he killed Anna Ammiller, cut up her body and threw it into the Hudson, will be left to the jury that will try him for murder. Judge Foster in the court of general session today denied a motion of Schmidt's attorney for the appointment of a commission to pass on his mental condition. The trial will begin Nov. 25th. Since Schmidt has confessed the murder, his defense has rested on the plea of insanity.

TOUGHEST BOYS ARE TO BE GIVEN HOME

Last Chance Boys Club Organized to Care for Them—Will Be Located in Nevada.

[BY ASSOCIATED PRESS.] Pittsburgh, Nov. 21.—Juvenile and truant officers here today asked by Jack Robbins, president of the National Fellowship Club of Chicago, for assistance in finding the "toughest boy in the city." After he is located he will be offered membership in the Last Chance Boys' Club. Robbins said that he had seen eleven others taken to a ranch near Reno, Nevada, where he will be given an opportunity to become a good man. A recently Upton Sinclair, Robert Hunter, Jack London and Jack Robb formed an organization having for its object the saving of a dozen of the worst boys in the country and Mr. Robbins was chosen to elect them. Already bad boys have been located at Racine, Wis., Milwaukee, Ind., East St. Louis, Ill., Lima, Ohio and St. Louis, Mo. No boys over 12 years of age are considered.

RICHEST OF WOMEN IS SEVENTY-EIGHT

Mrs. Hetty Green Does Not Observe the Occasion—Spends Time in Broadway Offices.

[SPECIAL TO THE GAZETTE.] New York, Nov. 21.—Mrs. Hetty Green, whose wealth is so vast as to make a seventy-million dollar widow appear as a mere "piker," reached her seventy-eighth birthday anniversary today, but she did not observe or celebrate the occasion. All week days look alike to Mrs. Green. Apparently she saves every reason why she should vary her usual routine of business just because it happened to be the anniversary of her natal day. She made several calls in the financial district and put in considerable time at her offices at 111 Broadway. Since she reached her seventieth year it has been rumored at intervals that "the world's richest woman" intended to retire and turn over the management of her colossal business and financial interests to her only son, Col. E. H. R. Green. The rumor appeared today to be verified a year or two ago when "Ned" Green quit Texas and came to New York to live. He has made his home here ever since. His mother turned her affairs over to him nobody knows it.

OVER SIX THOUSAND WAS PAID TO OLD SOLDIERS

[BY ASSOCIATED PRESS.] Neenah, Nov. 21.—In the last year the sum of \$6,065 was expended in Winnebago county for the relief of indigent soldiers and their families. The number of families given relief numbered 138. The sum of \$7,000 will be needed for this purpose the coming year.

WOMAN DIES OF WOUNDS INFLICTED BY SON-IN-LAW

[BY ASSOCIATED PRESS.] Pittsburgh, Nov. 21.—Mrs. Carolina Miller, who was shot by her son-in-law, Charles Deitz, when he ran into her house at Braddock, Pa., today, and also shot his wife, died in the hospital this morning. Deitz, who fired a bullet into his own head soon after, died late yesterday. Domestic trouble was the cause of the tragedy. Deitz having recently been released from the county jail where he was confined for failure to provide for his family.

ALCOHOL HEATER CAUSES NEAR PANIC ON LINER

[BY ASSOCIATED PRESS.] New York, Nov. 21.—Passengers on the S. S. Ancona, which reached New York today from Naples, had a bad scare on Monday when an alcohol heater exploded in a pantry and started a fire which spread rapidly to the salon passageway and the foyer companionway. Officers and crew put out the flames after an hour's work. A steward was severely burned. Many of the passengers had retired when the explosion occurred.

AWARDING OF PRIZES TO END THE CONTEST

MEETING WILL BE HELD AT CITY HALL AT TWO O'CLOCK.

DECISIONS ARE MADE

Short Addresses to be Given—Contestants Will be Guests of Gazette at Theatre Matinee.

Saturday marks the close of the Gazette Corn Growing Contest which has added the interest of the boys of the county during the past summer. Through the kindness of Mayor Fellers the final awarding of the prizes will be made at the assembly rooms of the city hall at two o'clock in the afternoon. There will be no formal program, but short talks will be made to the contestants by H. F. Bliss, Noyes R. Raessler, who has had charge of the contest during the summer campaign, and Prof. C. P. Nord of the State Agricultural College. The three gentlemen who acted as judges in the contest, E. L. Bingham, E. H. Ransom and W. N. More, have made their awards on weight alone, having gone over the reports made by the contestants and in some cases made personal examination of the plots of land themselves. These gentlemen will be present at the meeting Saturday and it is expected Mr. Bingham will make a short talk.

The meeting should prove most interesting not only to the contestants themselves but also to all who are interested in seeing Rock county state. Following the awarding of the prizes all the contestants will be guests of the Gazette at one of the local theatres for the matinee performance.

WILSON BANS PARTY FOR NEW YEAR'S EVE

President Opposed to General Hand-shaking With Thousands and Will Take Short Vacation.

[BY ASSOCIATED PRESS.] Washington, Nov. 21.—There will be no New Year's reception at the White House, President Wilson announced today, that during the holiday recess of congress he would take a ten days' vacation. Except when or where he will probably go will not be announced until his departure.

No predictions were made by White House officials as to what the president would do for succeeding New Year's days of his administration. It is known that Mr. Wilson is opposed to the physical ordeal of shaking hands with thousands.

SUFFRAGETTE FINED FOR MARKING WALK

Washington's First Militant Fined in Police Court for Committing English Tactics.

[BY ASSOCIATED PRESS.] Washington, Nov. 21.—Miss Lucy Burns, the capitol's first militant suffragette, paid a fine of \$1 in police court today for failing to clear the White House sidewalks with "Votes for Women."

The judge probated a release to Miss Burns on her personal bond not to repeat the offense. It is a violation of the city ordinance.

"I want this thing settled and over with," said Miss Burns. So the court made it \$1 and she left, the center of admiration of her sisters.

STRAP HANGERS ARE MOST ENTHUSIASTIC

Bill Introduced in Congress Orders Rebate Check Where No Seat Can Be Obtained.

[BY ASSOCIATED PRESS.] Washington, Nov. 21.—"Strap hangers" in street cars in the District of Columbia are today cheering "Senator Norris, who introduced a bill in the senate providing that any one entering a car and not being able to find a seat should be given a rebate check. Two of the checks in the terms of the bill would be legal tender for one fare. The senator believes that if the law is enacted the street car companies would provide seats for all patrons.

TELLS OF INCREASE IN TRADE WITH SAN DOMINGO

[BY ASSOCIATED PRESS.] Worcester, Mass., Nov. 21.—A five fold increase in the foreign trade of San Domingo has been one of the beneficial results of the six years' operations of the "Domestic convention," under which the United States supervises the custom collections of that country, said Prof. Jacob Hollander of John Hopkins University.

MILWAUKEE MAN AWARDED SIX CENTS IN LIBEL SUIT

[BY ASSOCIATED PRESS.] Fond du Lac, Nov. 21.—Six cents were awarded as damages in circuit court here today in a libel suit of \$5,000 brought by A. Jonas of Milwaukee against E. G. Tullidge of Oakfield. The defendant was charged with having written libelous letters concerning the dog show held at the state fair in 1912, saying among other things that Jonas had "swiped" his ribbons.

COMMERCIAL LAW TO BE ADDED AT NIGHT SCHOOL ON TUESDAY

New Feature Class to be Taught Under Instruction of S. M. Smith of Merchants' Savings Bank.

On next Tuesday night, there will be a new class started in connection with the night school. This class will go under the name of Commercial Law, and will be instructed by S. M. Smith of the Merchants' Savings Bank of this city.

The class will be organized on next Tuesday night, and the attendance promises to be exceedingly large. In fact, the largest enrollment of the classes making up the night school in this city is looked for in commercial law. Those wishing to enter the class should be present Tuesday evening at the organization of the class.

The taking of the assignments and doing outside work will be optional to each member of the class. It is possible that the course will not be finished this year. Mr. Smith stated that if the students wish to take two assignments on each evening, the work can be completed. Otherwise there will be a second year advanced class the coming season.

Mr. Smith's wide experience makes him admirably fitted for the line of work. He was formerly connected with the law firm of Whitehead, Matheson and Smith. Later he entered the firm of the Harris Trust Company in Chicago, after which he assumed the responsibility as attorney for the Janesville Machine Company. He is at present cashier of the Merchants' Savings Bank of this city.

WANT NEW LOCATION DETENTION HOSPITAL

Property Owners on Sharon Street File Formal Complaint With City Commission.

At a special meeting of the city council at nine o'clock this morning a complaint and protest of fifty residents and property owners on Sharon street and immediate vicinity against the present location of the detention hospital, was received and placed on file. The complaint alleges that the hospital is a menace to the health of persons living in the neighborhood and that property values are diminished and that growth of that section of the city is seriously checked by the proximity of the pest house. They ask for a new location, an isolated part of town. There have been less than a half dozen cases cured for at the hospital within the past year. No action is contemplated by the commission at present, although an investigation of conditions will probably be made at an early date.

On petition of the school board, whose funds are running low, the council ordered the negotiation of a loan of \$5,500 which be placed at the disposal of the board.

The report of the superintendent of the city stone crusher, for the season beginning in April and ending November 1, indicating that 5,034 yards of crushed stone had been turned out, was presented.

The appointment by Judge Maxfield of Miss Lulu Stoddard as clerk of the municipal court to succeed Ashbel C. Thorpe, was received and placed on file.

STREET RAILROAD FUNDS FROM STATE

City's Share of Taxes of Two Electric Roads is Received, Amounting to \$1,222.

City Treasurer George Muenchow received this today from the state treasurer covering the city's share of the taxes of the Janesville Traction company and the Rockford and Interurban company, being eighty-five per cent of the total value of the companies based on the valuation of their property in this city as placed by the state railroad commission. The amount received as tax on the Rockford and Interurban company was \$712.62 and from the Janesville Traction company \$509.58, a total of \$1,222.50 from both railways.

POLICE ASKED TO LOOK FOR STOLEN ROCKFORD AUTO

Janesville police received word from the Rockford authorities to watch for a stolen automobile that had been taken from Rockford by four young men, thought to be joyriders, who lacked the funds to hire a car for their frolic.

The car is a Buick make, model 31, with a black body, and full equipment. Illinois license number 4783. No trace of the stolen machine was found in this city yesterday afternoon.

WRITES OF CAPTURE OF CITY OF JUAREZ

J. C. Wilmarth Writes from El Paso of Recent Rebel Fighting Across the Mexican Border.

Press dispatches have told of the surprise of the federal forces by the Mexican rebels and the capture of Juarez, across the river from El Paso, but the following letter from J. C. Wilmarth is most interesting as it gives details not found in press dispatches. Mr. Wilmarth writes as follows:

Sunday, Nov. 10.

They captured Juarez for the sixth time yesterday and we are still feeling first rate. We don't know yet whether the new administration will make business better in El Paso, but we hope so.

This time it was a complete surprise. Usually the program has been announced two or three weeks ahead. The Federals have had possession of the border so long that they got careless. They were sure they had a train full of provisions to Chihuahua Friday. The train didn't reach Chihuahua, and the wires went down so nothing could be learned about it. Friday night about 2:00 a. m. I had a note from Juarez with about one thousand Rebels swarming over the cars. They piled out and started shooting. From 2:30 in the morning until 5:00 the guns and snipers were making things hum. At 5:00 the Federals surrendered and the Rebels began to shoot such of the prisoners as had been particularly obnoxious.

Villa has about 10,000 men in all and the Chihuahuas have worked captured a big supply of rifles and ammunition in Juarez, also two cannons and all the custom house money. He had twenty men counting money when our reporters got into the city and the headquarters looked as if a bank had exploded all over the room. As Villa talked different prisoners would be brought in. Some were sent back to jail, others were not. "He is a traitor, take him out and shoot him." He says the only way to protect the interests of the people is to kill the leaders who have worked against them. That must make old General Terrazas feel creepy, for all the Terrazas family is shut up in Chihuahua waiting for Villa to break in.

Before Villa leaves Juarez I understand there will be a general cleanup of cash. Every man of consequence will be called on for a contribution. Ten thousand dollars will be the minimum so they now say.

YOUTH TRIES TWICE TO ESCAPE OFFICER

Beloit Policeman Has Considerable Trouble While Passing Through City With Unruly Boy.

A Beloit youth afflicted with the "wanderlust" caused considerable trouble in this city early yesterday morning when he escaped from Officer Lanphere and ran through the streets in a vain effort to gain his freedom. The boy, Michael Denewouski, had left his Beloit home and beat his way to Elroy, where he was detained. Officer Lanphere of the Beloit force went to the northern city and brought the unruly youth back to his home yesterday. While coming to Janesville from Elroy the runaway locked himself in the toilet room of the car waiting for a chance to jump through the window. By a clever escape the officer forced his entrance and kept close guard of his charge. On reaching Janesville it was the purpose to take the six o'clock car for Beloit. While boarding the car, Denewouski, who carried the grasp of Lanphere, who chased him across the river before capturing him.

WANT LICENSE PUBLISHED TO BE SURE OF LEGALITY

Owing to an oversight, the marriage license of James P. H. Sanders and Gladys L. Johnson of Evansville, which was taken out on Nov. 15, was not published in the columns of the Gazette, relatives of the young couple have made several inquiries of County Clerk Lee fearing that the omission of publication might effect the validity of the marriage which is to be consummated next week. Mr. Lee has allayed their anxiety by the assurance that the Wisconsin law does not require the publication. The following: Antonia Heider of the town of La Prairie and Marie Wellnitz of the town of Bradford; Ruth Reimer and Alfred Oliver, both of Beloit.

NOTICE OF ANNUAL MEETING JANESVILLE PARK ASSOCIATION

The annual meeting of the stockholders of the Janesville Park association will be held at Assembly room in the city hall in the city of Janesville, Rock county, Wisconsin, Nov. 21, 1913, at 7:30 p. m. for the purpose of electing directors and for the transaction of such business as may be brought before said meeting. C. S. PUTNAM, Secy.

Escapes from School: Anna Cochran, aged seventeen years, who was committed to the Wisconsin industrial school for girls at Milwaukee about a year ago, escaped from the institution several days ago, according to word received from the maroon by Chief of Police Ransom. The girl's father, James Cochran, resides at 618 South Washington street.

Continues Inspection: Chief of the Fire Department H. C. Klein is still busy with the inspection work made necessary as a result of the law passed by the 1913 legislature by which fire chiefs are made deputy fire marshals. Conditions in many of the business blocks are reported dangerous, increasing the fire hazard.

USE CAR FOR YEAR; DECKER WANTS PAY

Local Automobile Dealer Sues Grant U. Fisher—Case Heard in Circuit Court Today.

George M. Decker of the Janesville Motor company was plaintiff in a lawsuit heard before Judge Grimm in the circuit court this afternoon, in which he seeks to recover the price of an automobile which he claims was sold to Grant U. Fisher a year ago, and which has been used by the latter and his sons ever since without an offer of settlement. Fisher contends that he did not contract to buy the car and that the machine was taken by his sons, Zeng and Stanley, on their own responsibility; that he in no way incurred the obligation to pay for the machine and that he has not operated the same or used it except for occasional rides with his sons. The original price of the car was some \$1,500. Louis A. Avery and M. O. Mount were Decker's attorneys and J. I. Cunningham for Fisher. Taking of testimony was begun at nine o'clock this morning and was completed shortly after three o'clock this afternoon, when the case was taken under advisement.

City Attorney W. H. Dougherty was in circuit court this afternoon petitioning for a hearing on a motion to dissolve the temporary injunction in the water works case, at the earliest possible date. Judge Grimm stated that he would be occupied with the trial of jury cases in the court for Jefferson county all of next week. He was arranged to hold a hearing at Edgerton for nine o'clock Monday morning.

ATTRACTIVE DISPLAY OF CHILD'S BOOKS

Library to Establish Display of the Best Juvenile Books for Ideas in Christmas Gifts.

The books which a child owns and has for his own book shelf have far more influence on him than those which he borrows for a few days only, and should be very carefully chosen. Of the numerous children's books, many of the most beautiful and interesting are weak and worthless, others positively harmful in their influence, while the discriminating buyer may find plenty that are of real and lasting value.

For the purpose of helping those who wish to purchase children's books for Christmas gifts, an attractive display has been arranged in the children's room at the Janesville Public Library. It contains beautiful illustrated editions of some of the best juvenile books, and also many which are both good and inexpensive. Some interesting novelties for little children, as the Bungalow books, glue books, and many others.

The exhibit will continue through Friday, Nov. 25, and parents, teachers, and everyone interested in children's books are invited to see the display.

CANTILLON HAS NOT RESIGNED POSITION

General Manager of Northwestern Road is Confined to Home by Illness But Has Not Resigned.

Official denial is made to the report published in Milwaukee papers today that W. D. Cantillon, general manager of the Chicago & Northwestern railway system, has resigned. The denial came over the telephone from William G. Wheeler, who stated this afternoon there was absolutely no truth to the report which appeared in the Milwaukee newspapers. Mr. Cantillon is ill—is confined to his home by an attack of heart failure—but is steadily improving and has no thoughts of retiring, according to Mr. Wheeler. The rumor was current here Thursday that Mr. Cantillon was dead. He has been general manager since 1910.

Sport Snap Shots

Harry McCormick, the talented pinch hitter with the Giants, is said to be the most comical cuss in baseball. Players who are associated with McCormick or who have spent any time in his society declare that he can slip them a guffaw any time he wants to. McCormick has several pet names, among them "Bull" and "Mush the Moose." As a matter of fact McCormick never gave baseball any very serious consideration. He just happened to get into the game and thus far he hasn't happened to quit and that's all that is to it. It's as good a way of earning a living as any other he knows of and so why should he repine? The only things that McCormick really cares very much about are football, whistling and cutting up. While going to college he was a wonder with the pigskin and still is when he gets out with a professional team. McCormick is content to earn his wage at pinching and single in a pinch, and he has the rest of the while and whistle popular.

Billy Kelly, the Pittsburgh backstop who with Nemo O'Leary made up the famous \$30,000 battery that was given some little notice a few seasons ago, is going back to the sticks. Kelly touted as a wonder working wizard behind the bat couldn't seem to make a go of it in the big show and the reason is said to be that "they got his goat." Kelly didn't seem to have the nerve to bolster him up in tight places and after one particular game at Boston last season he lost his man never to recover it. His wing in the frame with the Beaneaters was out of focus and seven or eight bases were stolen on him by pretty slow men at that. His teammates joshed him

a bit about it and in fact treated him in a rather unpleasant manner. Which didn't help a bit and he worked over his poor showing and was altogether so irritated that finally he was hardly able to hold the ball, let alone throw it. His performances on that Eastern trip made it clear that he would never stick with the pirates. He warned the bench most of the time throughout the rest of the season and though when shoved in to catch a game at the last series on Forbes Field he made a good impression and seems to have recovered his nerve, the officials decided that he was too nervous to handle the big league racket and he has been turned over to Toronto of the International League. Kelly thinks if he could have another swing at the major circuit he would be able to make good, but he'll have to develop more nerve before he can put it over.

Willie Ritchie, as he has been pointed out so often before, doesn't smoke, chew, drink, curse or stay out till it begins to get early, but just the same he had a nice time while in New York. The sport writers, fans and promoters of our largest city were so nice to him that he showed them his appreciation by having them all as his guests at a dinner and theater party. And Billy Gibson gave a dinner with Ritchie as the guest of honor. Willie was provided with all the ice cream he could get away with. It's his favorite food.

Both the Michigan Aggies and Notre Dame are claiming the western football championship. Both teams certainly have the right to voice a brag or two in this connection and both have made very beautiful and lovely records this season. But it would seem on second thought that the Aggies have the bulk on Notre Dame, the former having the distinction of having beaten both Michigan and Wisconsin. Which none other have been able to do. However a sort of post season series—best four out of seven—or something of that sort might help to settle the dispute and provide us all with some thrilling football.

CRIMSON FOOTBALL TEAM IS FAVORITE

Harvard Money Covered Whenever the Odds Are At All Tempting—Record Attendance.

[SPECIAL TO THE GAZETTE.]

Boston, Mass., Nov. 21.—Although the stadium will accommodate upwards of 40,000 persons, every seat will be taken when the football eleven of Yale and Harvard face each other for their yearly struggle tomorrow, and thousands of would-be spectators who have sought seats in vain will have to content themselves with following the contest by ticker or scoreboard. Interest in the struggle is, to all appearances, keener than ever before.

Boston hotel managers declare the reservations this year outnumber those on the occasion of past encounters here of the football teams of the Blue and Crimson. Hundreds of rooms in the big hotels were secured by mail or telephone weeks ago, and persons making last hour calls are all receiving the same reply: "Sorry, but there is not a place left."

A large amount of money will change hands on the result of the game. Because of its splendid record for the season, including its defeat of Princeton and Cornell, the Harvard team is naturally a favorite in the betting. At the same time the general feeling that Yale has pulled itself well together within the past two weeks and has at least a chance for victory, is reflected by the readiness with which all of the Harvard money is covered whenever the odds offered are at all tempting.

BADGER SPECIAL TO CHICAGO SATURDAY

Will Pass Through Janesville at Eight-Forty in Morning, Making Stop Here—Two Sections To Train.

Wisconsin university will be represented strongly at the championship battle between the Maroon and Badger eleven for the title of the conference, Saturday at Marshall Field, Chicago. It will require two special trains to carry the majority of people to the scene of battle, and the St. Paul road have placed on a train to run in to sections, to the metropolis Saturday. The train will compose all steel cars, and will leave Madison at 7:20 Saturday morning, arriving at this city at 8:40, and reaching Chicago at eleven o'clock.

Over twelve hundred state university students have been provided with tickets to the contest, and as the average coach will only seat about one hundred and fifty comfortably, at least seven coaches to each section will be stretched out. Accommodations will be made for any others planning to go to the game. The train will return, leaving Chicago at 11:35 in the evening.

MONROE HUSKIES ARE COMING HERE STRONG

Green County High School Squad In Fine Fettle for Contest With Locals.

The high school football eleven from Monroe is coming to this city Saturday afternoon with the idea of making a successful invasion. They claim that Beloit defeated them badly because they were not in trim for that contest, having had a hard game previous to the Beloit contest, when they smothered the Delavan Dummies in a hard tussle. Whether or not that does is rated at par will be found out tomorrow when the two eleven line up at the Janesville Park Association grounds at two-thirty. The locals are in good condition and are going to fight for blood to see if they can score one victory, as this will be the last game of the year, from the present outlook. Another game will be arranged for turkey day, if possible.

Light signal drill was the program for the squad yesterday afternoon. The regulars are depending on every man's getting the jump on the opposing player. A score of 20 to 0, or better, would not look bad on the local score sheet, and Coach Curtis believes he has a scoring machine at last, after the strenuous effort put forth by his men during the week. Atwood, Dalton, Dearborn and Stewart will be the probable backfield for tomorrow. They have developed a word of speed since last week's contest. Their period of development is over, and the last effort to win a game on the 1913 gridiron will be made in true fighting spirit. If they succeed, it is probable that Curtis will get some strong eleven here for a Thanksgiving day game.

The Monroe eleven is not the team that invaded the local camp four years ago. At that time, Captain Davis, weighing 240 pounds, was "Cherry." Such men as Fricke and Scott played with the Green county men in those days, with Woodworth, Nuzum, "Tutus" Tippet, the material on the local eleven. The game will, however, represent more open style football, and more speed will be exhibited.

KANSAS GIVEN CHOICE OVER MISSOURI TEAM

[SPECIAL TO THE GAZETTE.]

Columbia, Mo., Nov. 21.—A lively interest is manifested throughout Kansas and Missouri in tomorrow's annual football game between the two state universities. The Kansas team rules a slight favorite, partly because of the excellent record it has made so far this season, and partly because of the long line of victories it has scored over the Missouri university in the past. The two universities have engaged in 22 gridiron contests since 1891. Of this number Kansas has won 14 and Missouri 4, while 4 games resulted in tie scores.

BADGERS AND YALE ARE CONFIDENT OF WINNING TOMORROW

Center of Interest on Gridiron Placed With Chicago-Wisconsin and Yale-Harvard Battles.

The climax of the 1913 gridiron season comes tomorrow afternoon when the championship of the west will be settled in the Badger-Maroon contest at Chicago, and the title of the east will be fought out at the Harvard stadium between the Blue and Crimson warriors.

Battle Royal at Chicago.

Finished football, exhibited by the two experienced bunches of players who have a championship game this season, is the attraction looked at Marshall Field, with Chicago and Wisconsin in the limelight. Both sides have finished their preparations for the final battle and the fans are waiting for the whistle with the expectation of witnessing the most polished brand of gridiron tactics exhibited this year on any western gridiron. From start to finish the contest is slated as a struggle of veterans.

Although Chicago rules a slight favorite for the laurels, conference fans give the Badgers more than a fair chance to break into a triple tie with Chicago and Minnesota by humbling the Midwesterners. If any one thing sustains the Badger backers in their railing ambitions it is the fact that the Wisconsin team consists entirely of players who have seen more than one season of college ball and who are used to fast company. The visitors will have the shade on the Maroons in this particular.

Wisconsin's Advantage.

Coach Slag called special attention to this feature of the game when he gathered his pupils for a lecture after last night's signal drill. He declared that the experience of Coach Juneau's men would be a telling factor. The Maroons have not met so seasoned a group so far, and the director affirms that the invading veterans will surely show the results of their long training.

Coach Slag's diagnosis of the situation gives Wisconsin men more of a chance than the Maroon backers have been willing to grant since the Minnesota game. The predictions have been veering about all week at the midway, and Coach Slag decided to sit on the rabbit omnibus with some cold facts. He told the squad that Wisconsin would be stronger than it was last year, and called attention to the circumstances that the visitors will line up practically as they did last season, except that they will be strengthened by the addition of Buck, who is regarded as the pick of the western tackles.

Osile at end Koehler and Caine at the guards, Butler at left tackle and Bellows, Cummings, Alexander and Tanchberg are all known at Marshall field. The Midwesterners think Belows is due to play a stellar game tomorrow, as it is thought he is the key for many of Coach Juneau's new plays.

The Big Eastern Game.

From all indications, when Harvard and Yale meet in their annual battle

AUSTRALIAN WHITE HOPE TO VISIT U. S.

The very next boat that comes to this country from Australia will number among its passengers Colin Bell, "white hope" from the land of the kangaroo and the birthplace of Bob Fitzsimmons. That Colin knows he is a scrapper and that his manager, George Lawrence, knows it too, is evidenced by the challenge issued to Jesse Willard and Gunboat Smith, whom Colin is anxious to meet.

JANESVILLE BOWLERS DEFEATED AT BELOIT

Golden Eagle Five Defeated by Janesville Milk Company at Miller's Alley.

Janesville bowlers who journeyed to Beloit last evening were defeated by 265 points, the Beloiters gaining an early lead in the first two frames, which proved too great for the locals to overcome. Goss of Beloit was high man with 138, Abramson totaled 130 points, high man for Janesville.

The Golden Eagle five bowed down in defeat before the prowess of the Janesville Park Milk team by 320 pins. Merrick was high man for the milk tossers with 163 pins.

Other Important Games.

In the western conference, Minnesota will meet Illinois at Champaign, to determine second place in the conference. Iowa is making a strong bid for the western title. They go about it in this way. If Nebraska, the eleven that won from Minnesota, falls before them tomorrow, they will make a bid to play the winner of the Badger-Maroon contest, even though they were defeated by Chicago 23 to 6. It is hardly probable that their claim will be considered. Second place is their limit, according to critics. Indiana and Purdue will fight for third place at Bloomington. Columbus will be the scene of the Ohio state-Northwestern contest.

The little five conference will play its deciding contest at Lake Forest, Beloit to be the foe of Lake Forest. Kansas and Missouri play tomorrow at Columbia in an important western conflict. In the east, Carlisle and Syracuse meet at Syracuse. The Indians are sure of a win. Lawrence and Cornell fight for the secondary state title of Wisconsin colleges at Wausau.

JANESVILLE BOWLERS DEFEATED AT BELOIT

Golden Eagle Five Defeated by Janesville Milk Company at Miller's Alley.

Janesville bowlers who journeyed to Beloit last evening were defeated by 265 points, the Beloiters gaining an early lead in the first two frames, which proved too great for the locals to overcome. Goss of Beloit was high man with 138, Abramson totaled 130 points, high man for Janesville.

The Golden Eagle five bowed down in defeat before the prowess of the Janesville Park Milk team by 320 pins. Merrick was high man for the milk tossers with 163 pins.

NO MERCHANT MARINE.

According to the Wall Street Jour-
nal, in a few weeks the latest and
greatest of the wonders of the world
will be completed, and the freakish
barrier which for centuries has sepa-
rated two oceans and forced the mar-
iner to make a perilous voyage of
more than eight thousand miles to
overcome a distance of but forty, will
yield forever to American engineering
science.

From a military point of view, the
advantage of the canal to the United
States is almost incalculable. It will
secure this advantage, in large
part, that the work was undertaken.
The interest of this country in the
Pacific made a Panama canal impera-
tively necessary. Even though it
should never actually be used for a
quick transfer of the navy from one
ocean to the other in actual war, the
assurance that this can be done is
worth to the government and to busi-
ness far more than the actual cost.

Yet it should be a cause for national
chagrin if, after an expenditure of
\$350,000,000, this country does not al-
so secure its due share in the com-
mercial advantages of this great
American enterprise. From present
indications, it is not likely soon to se-
cure such due share, nor even an im-
portant share. Scores of ships are
building in British and European ship-
yards for traffic via the canal and
many foreign steamship companies
are altering their schedules by the
addition of canal routes. Japan's
leading steamship company is under-
stood to have completed several ex-
ceptionally large steamers for canal
services, and the flag of Nippon may
become almost as familiar a sight in
Atlantic ports as it is on the Pacific
coast.

Meantime, what has been done in
American shipyards? Some vessels
are building, but instead of heading
the list of nations which will use the
canal for foreign trade, the United
States lags far in the rear. Its mer-
chant marine, so far as such trade is
concerned, is still a matter of glorious
but receding history.

One section of the canal act passed
in August, 1912, provided for the
registration of "free ships" for for-
eign trade, under American ownership
and management; yet in the fifteen
months that this act has been in
force, no foreign ship has been so
registered. Even protectionists have
been ready to endorse the policy of
free ships on the simple ground that
the counter-policy, after an unreason-
ably long trial, has produced no re-
sults. But now it is clear that free

ships alone will not solve the prob-
lem.
A favorite contention of some has
been that opportunities for American
capital in other fields have been so
much more attractive that it was idle
to expect such capital to go into
ocean transportation. This on its
face is incredible. The great foreign
steamship companies of today could
never have been built up if profits were
so near the vanishing point. Subsi-
diary foreign governments may ex-
plain part of the success of certain
fast passenger lines, but this cannot
be applied to the merchant freight
marine in general.

A speedy revision of the generous
and obsolete navigation laws which
for years have blighted every effort
to restore the merchant marine of the
United States is demanded. There is
no more sense in restricting the na-
tionality of labor that may be em-
ployed on American ships than in re-
stricting that employed on American
land. Indeed, there is far less. Here
is a practical field for the New Free-
dom.

It is time that a definite policy be
adopted. Some committee of the sen-
ate or the house, while congress
marks time in the coming months
over the currency bill, should in-
vestigate the whole subject. It should
not get its information from casual
conversations with Norwegian sailors,
and the senior senator from Wiscon-
sin need not be among its members.

Despite the fact that Captain James
Davidson, owner of the Rock County
Sugar company, has decided to close
his factory in this city rather than
run at a loss, some of the democratic
leaders of the state scout at the idea
and insist the report is not true. They
did not count on the effect of their
tariff measure being as immediate as
it is.

When the next distribution of Car-
negie medals is made care should be
taken not to overlook the heroes who
are fighting behind the pork barrel in
congress.

This is casing weather for the to-
bacco growers and it is to be ex-
pected that the checks received will be a
sort of Thanksgiving-Christmas gift to
many a farmer.

The mayor of Atlantic City wants
everybody to cease eating eggs until
the price drops. But by that time
will they be fit to eat?

Why do American suffragists go
to England to get hurt when there
are so many ways of accomplishing
the same end here?

Turkey has retained its old officers
for the re-organization of its army.
Why doesn't it try a few Bulgarians?

Huerta is not going yet. He seems
to be one of the kind who doesn't
mind missing a few trains.

Anyway, those French aviators who
ride upside down in a gale of wind
haven't got much on Huerta.

The problem is to get an income
big enough to be taxed and then
evade paying.

Heart to Heart
Talks

By CHARLES N. LURIE

HOW MUCH DO YOU PAY?

When the government collects \$344-
424,453 in one year as the revenue
derived from the sale of intoxicating
liquors, tobacco and playing cards, is
everything well with America?

The government needs money for the
necessary expenses of government.
The internal revenue tax helps to sup-
port the government. But it may be
said that in the end the millions col-
lected by the government from such
sources cost the people many, many
millions more than they bring in.

How much do you pay?
Of course you know that every time
you take a drink of liquor, smoke a
cigar or a cigarette or break the seal
of a deck of playing cards you help to
bring up the enormous internal revenue
total. Perhaps, you say, in doing so:

"I am a patriotic citizen. I am help-
ing to support the government."

False reasoning. You are helping
to break down the government, not
build it up, for unless the teachings
of history are untrue the nation in
which the vices grow cannot last.

No nation can be greater or stronger
than the aggregate greatness and
strength of its individual citizens. If
you weaken yourself by excessive
drinking of intoxicants, by too much
smoking, by losing your hours bending
over the gambling table, you are not
an asset, but a liability.

There are too many such in America
and elsewhere.

Work makes a nation great, not
luxury or vices.

You remember the old quotation, no
doubt:

It takes the hand, to hastening its prey,
Where wealth accumulates and men de-
cay.

That hits the idea squarely in the
bullseye. Wealth accumulates, per-
haps in huge heaps. It buys for one
generation luxuries undreamed of by
its predecessor.

But they have to be paid for. The
price is not the gold spent for them.
It is the toil of the masses which
creates all wealth.

If the hundreds of millions of in-
ternal revenue were contributed only
by the members of the "upper classes,"
who are relatively few in number,
there would be less cause for alarm.

But it comes largely from the pockets
of the workers.

Lesser Evil.

OLDEST OF PEERAGE
IS CRITICALLY ILL

Early of Wemyss, Ninety-five Years of
Age, Not Expected to Recover—
Served Twenty-two Years.

[SPECIAL TO THE GAZETTE.]
London, Nov. 21.—The Earl of
Wemyss, the oldest member of the
British peerage, is reported critically
ill at his home at Gosford, Hadding-
tonshire. In view of his advanced
age—he was 95 last August—grave
fears are entertained for his recovery.
The Earl of Wemyss is not only the
oldest member of either house of par-
liament, but the only legislator who
lived in six reigns. It is seventy-two
years since he commenced his legis-
lative career, and with the exception
of about twelve months he has been in
either the commons or the lords
throughout the period. With the ex-
ception of Melbourne he has actually
served as legislator under every
prime minister since Queen Victoria's
accession.

The venerable Earl has always been
known as a prophet of woe—a modern
Jeremiah whose voice is filled with
lamentations. Ever since he entered
public life he has preached a doctrine
of national pessimism. The times to
him have been out of joint. He be-

lieves conscientiously that England is
following in the footsteps of Rome and
hastening to the "demition bow-
wows."

In his own person the Earl has fur-
nished the best refutation of his jere-
miads on national decadence. Until
overtaken by his present illness he ap-
peared as sound in mind and body as
many men of sixty years. Throughout
his life he has been a keen sportsman.
He has taken an active interest in all
public affairs and has found time to
indulge in literature and sculpture.

When he was more than 80 years of
age it was rumored that he was to
marry Mrs. Patrick Campbell, the
actress. But nothing came of the rum-
or and a short time later the Earl
married a charming, young daughter
of the late Major Blackburn.

Utilization of Waste Cork.
Waste cork is used for a variety of
purposes. Life buoys are filled with
scraps of cork; linoleum, a variety of
floor-cloth, is made from linseed oil
and pulverized cork paper, a material
used for packing bottles, is made by
coating strong paper with an adhesive
mixture and sprinkling powdered cork
over it; cork is sometimes used in
place of wood shavings in the prepara-
tion of vinegar; and illuminating gas
has been made from cork waste by dis-
tillation in a retort.

ANNIVERSARY SURPRISE
FOR CLINTON COUPLE

Mr. and Mrs. W. H. Cheesman Enter-
tain on Occasion of First Wed-
ding Anniversary.

[SPECIAL TO THE GAZETTE.]
Clinton, Nov. 21.—W. H. Cheesman
and wife were greatly surprised upon
their return from Janesville last even-
ing to find their home in possession of
a number of relatives, friends and
neighbors who had thus met to cele-
brate with them their first wedding an-
niversary. A fine supper was served
by the invading party and the evening
spent in a general rousing good time.
No couple in Clinton can boast of so
many friends as these popular young
people and all wish them long life,
health and prosperity.

Samuel J. Luchinger went to Mon-
roe yesterday to attend the funeral
of his grandmother; he returned on
the evening train.

There will be a box social at the
Northrop school house Friday night.
Mrs. Marshall of Beloit will render a
program of her readings.

About fifty attended the benefit
party for St. Catherine's church at the
home of Mr. and Mrs. Fred Conry on
Durand street, Wednesday evening.
Thirteen dollars was realized which
will be used for furnishing the new
parsonage at Sharon.

The Citizens Bank at this place will
get about \$30,000.00 as its share of
county money on deposit. The entire
credit for distributing the county's
money back to the different banks
over the county instead of concen-
trating it in one or two banks as heret-
ofore, is due to H. A. Mochlenpach,
who personally appeared before the
county board and by his eloquence
and persuasive manner convinced the
members of the county board that the
new plan was the fairer.

Hiram Cooper and daughter, Miss
Miste Cooper, spent Thursday in Elk-

horn, visiting friends.
Mrs. S. G. Lake notified from Dela-
ware last evening where she had been
visiting relatives.

Harry Van Horn will leave Saturday
for California where he will join his
wife who proceeded here some time
ago. They expect to spend the winter
there. Their many friends hope that
they will not like that country so well
that they will make it their perma-
nent home.

Fred P. Olson went to Chicago yes-
terday morning to visit relatives over
Sunday.

W. H. Cheesman and wife and E.
R. Kizer and wife went to Janesville
yesterday on a pleasure trip.
Mrs. F. C. Bradley went to Janes-
ville yesterday morning for the day.
Miss Bertha Vandervlyn was in
Janesville yesterday.

Dr. W. O. Thomas and daughter,
Dorothy, were in Milwaukee yester-
day on professional business.

Wouldn't Want Him.

A distinguished French authoress
(who for obvious reasons must be
nameless, but who lately was intro-
duced to one of the most important
and least imposing, personally, of the
European monarchs) was asked a day
or two ago what she thought of him.
Her reply was unexpected. "If I were
out fishing and caught him," she re-
plied, "I should put him back."

Real Test of Sympathy.

Anybody can sympathize with the
sufferings of a friend, but it requires a
very fine nature—it requires, in fact,
the nature of a true individualist—to
sympathize with a friend's success—

SYNOPSIS:

Bretton, a war correspondent, obtains a personal letter from the
Minister of War. Bretton meets Clark, correspondent of a rival news-
paper. Clark catches sight of Bretton's letters, and resolves to steal
them. The story jumps to the scene of warfare where Sonia and her
father are tending their sheep. The old man is killed by a stray bul-
let. The two correspondents from the edge of a precipice, note a skir-
mish. Bretton makes a false step and falls. Sonia, in going to his re-
scue risks her life. Clark steals the coveted papers. Bretton recovers
from the fall, and somewhat smitten by his rescuer, he wanders away.
He is arrested as a spy, but escapes.

A battle is in progress and both correspondents have their stories
ready. Clark is tricked by Sonia, and Bretton's telegram goes through.
When Clark arrives, the wires are congested. Disgruntled, he visits a
neighboring theater. A shell crashes through the building. Clark
among others is rendered unconscious. Bretton sees the demolition of
a majestic war vessel by a hidden mine. Sonia, aiding Bretton again
foils Clark. Bretton, to obtain a better view of a land conflict, goes
aloft in an aeroplane. Shattered by a shell, it falls. Sonia, who has
been captured by the Turks after being wounded, escapes. She sees
the aeroplane descend and saves Bretton from being burned to death.
Again Bretton is triumphant in getting his story over the wires, ahead
of Clark. He asks Sonia to return home with him as his wife. The
young people at the conclusion of hostilities, are congratulated by the
newspaper's proprietors. They meet Clark and all differences are end-
ed in a warm handshake.

There is a rapid succession of big and thrilling scenes. A bridge
is exploded, and the train plunges through the opening into the river.
There is much burning of gunpowder, a theater is destroyed by a burst-
ing shell, and there are the active manoeuvres of artillery, cavalry, and
foot soldiers.

PUBLIC OWNERSHIP BECOMING POPULAR THROUGHOUT STATE

Beaver Dam Is Ninth City to Take Over Water Plant—Racine and Janesville Cases Pending.

Madison, Wis., Nov. 21.—With the order of the railroad commission to turn over the property of the Beaver Dam water company to the city of Beaver Dam at a valuation of \$132,000, thirteen plants have been purchased by cities under the utility law since the law was enacted. In three different cities the properties have been taken over in the past two weeks and three cases are pending, in which the valuation has been almost completely rejected. The thirteen cities have paid an aggregate of \$2,404,000 for the plants.

In 1907 the legislature passed a law permitting the utilities to take over the plants of the state. The law permits the city to take over an existing utility at any time at a valuation to be fixed by the railroad commission. Under his law practically all of the water plants of the state have become municipal enterprises. In Manitowish the city has purchased the electric plant and the water plant, and word has been received here that there is an agitation for the city purchasing the gas plant.

The cities that have purchased plants since the law was enacted are:

Cashiot (electric)	Price fixed.
Appleton (waterworks)	155,000
Lake Geneva (waterworks)	86,500
Manitowish (waterworks)	236,000
Brookfield (electric)	40,500
Manitowish (electric)	137,500
Antigo (water)	108,800
Fond du Lac (water)	320,500
Sheboygan (water)	415,000
Kaukauna (electric)	50,000
Whitefish (water)	55,000
Wausau (water)	525,000
Beaver Dam (water)	132,000

The Cashiot case was the first of its kind and in the decision the commission laid down its methods of valuation. The Appleton case attracted considerable attention because the lower court overturned the commission's figures, but the supreme court reversed the lower court and sustained the commission. The commission was also sustained in the Kaukauna case and in the Fond du Lac case an appeal was taken, but was later dismissed.

At the present time the commission is valuing the Racine water works which has property of nearly \$1,000,000; the Janesville water works and the electric plant of the Grand Rapids Electric company with property worth about \$75,000.

LATE AWARDS UNDER COMPENSATION ACT

Harvester Company Employee Is Dealt With Liberally—City of Sheboygan Loses Case.

Madison, Wis., Nov. 21.—The International Harvester company has declined to take advantage of the supreme court's ruling that companies under the workmen's law cannot be required to reimburse injured workmen for medical and hospital expenses unless notified at the time of the accident. In the matter of the application of John Stanosz of Milwaukee for compensation, the company has consented to reimburse him the sum of \$25 which he has actually paid out, and to pay the bill of Mr. Birkl, not exceeding, however, \$19. The industrial commission has awarded Stanosz \$79.48 as compensation for disability and \$74 for medical expenses.

The city of Sheboygan is ordered to pay F. R. Evans who was janitor of a schoolhouse, \$217.75 for compensation and \$24 for medical expenses. Evans, while on a errand for the school principal, rode through an open draw bridge bridge with his bicycle and suffered a serious injury. The case had gone to the supreme court before the industrial commission received it. The commission holds that the authorities of the city knew of his injury yet neglected to furnish medical attention.

Two cases in the city of Milwaukee were dismissed without compensation. J. P. Buchholz, injured in the employ of the Bucyrus company, became dissatisfied with the treatment furnished by the company and obtained a physician of his own choice at an expense of \$23. The commission holds the company is not liable under the law. Nelson Brummet, an employee of the city, who claimed he received internal injuries while lifting stones into a rock crusher, had his case dismissed because in the opinion of the commission he was a very infirm man, suffering with a complication of diseases and broken

Are We Your Clothiers?

PROBABLY you're one of the great majority of Janesville men who through years of careful buying and testing of values have learned that this store is able to offer finer assortments and better qualities at prices that are in nearly every instance greatly below what you would pay elsewhere. If you haven't yet learned these facts, you owe it to yourself to come here now and see what splendid quality garments the famous makers of the country have produced for us this season. You will find them all you could ask in style, quality, workmanship and service and the price will be much less than you expect.

Captain Inch and his dog Jack.

Captain Francis Inch, commander of the lost Vulcanic, is now in the United States. He tells with great modesty the story of his deeds on board the burning vessel, and shows greater interest in his dog Jack, the ship's mascot, than in any story of his heroic work in the hours of peril on the sea.

The unwritten law of the seas which bars a captain who loses his ship from being given another command will not be applied in his case.

down in health, and the injury was apparently not the result of accident. The commission awarded Gustav Weiser, 18 years old, \$142.19 in addition to \$750.49 already paid, making a total recovery of \$1,392.59, from the P. Mayer Boot & Shoe company of Milwaukee. As a result of an injury the boy's right hand was amputated. The money to be paid in lump sum, will be held in trust for him.

Louis Schneider of Milwaukee, a teamster, was awarded \$111.75 from the S. Jung company for a fractured elbow. This sum is in addition to \$100.10 already paid him.

TOBACCO STRIPPING IS ON WITH A RUSH

Rains and Warm Weather Have Made Handling of Crops Easy This Year—Deliveries Will Start Soon.

Rains and warm weather have given the tobacco growers an opportunity to start stripping his early crops and as a result it is probable that there will be deliveries made within the next ten days that will put money in the farmers' pockets for the holidays and also cause some of the packing houses to open up much earlier than anticipated. Late tobacco, it is said, is not in shape to handle just at present and will remain in the sheds for the present at least. Baling still continues but on far more conservative lines than during the rush campaign, and in some cases has stopped entirely. Some baling is being done by buyers but the bulk of the crop has been picked up.

MYSTERY SURROUNDS AN ABANDONED AUTO STRANDED IN CITY

Man and Woman Companion Leave Car Which Figured in Accident Near Milton, Standing on Court Street.

Who is the owner of a Stutz roadster bearing an Illinois license number, 47474, which was abandoned by a man and woman when it balked in front of the residence of C. P. Beers on Court street at four o'clock Thursday afternoon? This is the question which the Janesville police attempted to solve today, and the machine, which is in a bad condition, is being held in the meantime at the Strimple garage.

The car is the same machine which crashed into the light touring car owned and driven by Herman A. Schultz of Milton Junction near the fork in Milton avenue, four miles west of this city, shortly before noon Thursday. Schultz's machine was badly damaged and is at a local garage for an overhauling. He sought to swear out a warrant against the owner of the Stutz yesterday afternoon, but as he did not know the gentleman's name such procedure was impossible. District Attorney Dunwiddie has written to the Illinois authorities to learn the name of the person to whom the license number was issued.

Schultz and three other men, Harry Conry, Louis Scholz and John Trummer, all of Milton Junction, who have been employed in constructing a

concrete basement for a house on the William B. Shoemaker farm north of this city, were returning home yesterday morning, as the heavy rain had made work impossible. As they were climbing the grade toward the fork in the road a few miles this side of Milton and before Schultz could turn his car more than half way out of the road there was a collision. Schultz's car was badly demolished, but the roadster, being of heavy construction, escaped damage. There were two men in the roadster, the driver claiming to be employed at a Port Atkinson garage and the other man seemed anxious to get to Janesville to get a train for Chicago. They stopped long enough to talk with Schultz and his men, none of whom were injured, and then Schultz came to Janesville in the roadster. He inquired the driver's name and understood it to be Gargus or Garigan. They made no offer to settle damages. Schultz claimed that the roadster was being driven near thirty or thirty-five miles an hour at the time of the accident. What became of the two occupants of the roadster is not known and the same car was abandoned on Court street about four o'clock yesterday afternoon by a man and woman who gave a portion of the machine's equipment to David Allison, a ten year old boy. When the machine had been called for late last night the police were notified and orders were given to have it taken to the Strimple garage. A broken crank shaft had put it out of running order. What became of the man and woman after they left the machine is unknown and they have not been traced further. It is not even known whether the man was the same person who was driving at the time of the morning accident.

Garage men claim the roadster is the same one which was here for the auto races last month but which failed to start.

WEATHER CONDITIONS.

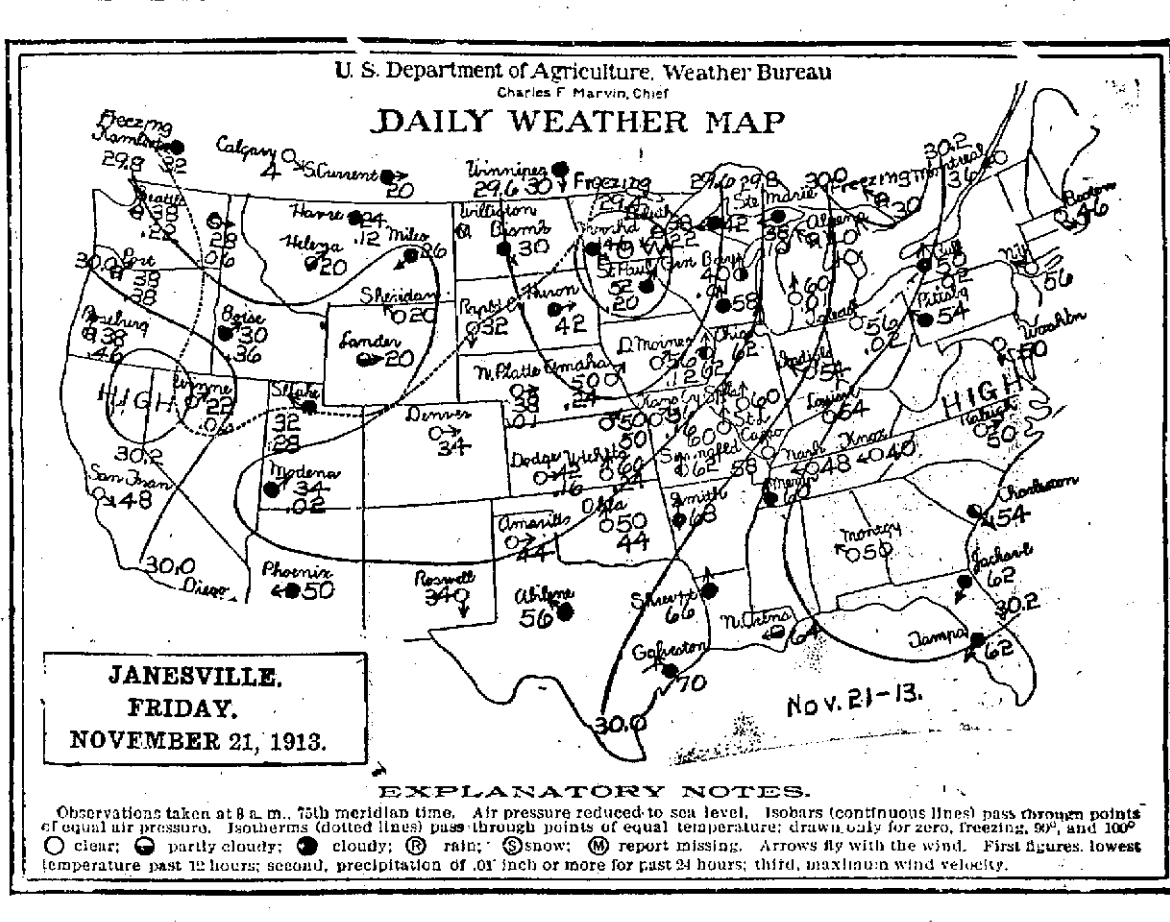

The barometric depression that has prevailed in the northwest during the past few days is now approaching the lake region. It presents about the same appearance as the great storm of two weeks ago but there is nothing to show whether or not it will experience the peculiar changes that marked that storm. Rain and high winds attend this disturbance throughout the upper lake region and middle west.

Another depression in British Columbia is attended by rain and snow in the Columbia basin and on the Pacific coast.

WOMAN'S PAGE

The Evening Chit-Chat

BY RUTH CAMERON

MORE ABOUT "AN UNFAIR DECEPTION."

SOME weeks ago I wrote you about what I called an "unfair deception." My thesis was that it was not right to keep from anyone who was dying the truth about the matter.

In answer to this I received a very interesting letter. "About five years ago," writes my letter friend, "I developed a complaint which led me from one doctor to another. Finally a specialist, after a lengthy examination, told me I must move to a milder climate and do my work but lead an idle, care-free life for many months. I insisted on knowing exactly what the matter was, and they finally told me that I had a peculiar nervous disease which affected the heart and they could only promise me at most two years to live, if I were very careful. I might go off at any time if I continued working as hard as I had been doing."

"After several minutes I somehow managed to thank the doctors for their frankness and I went out into the sunshine. I knew I couldn't make any of the changes the doctors insisted upon for I was only twenty and utterly dependent on my own earnings, which were not very large. So I had to decide to try to live my life one day at a time, never looking beyond, and give and take as much of the sweetness of life as possible in the time I had."

"I worked hard for I was ambitious and rose steadily in the office where I was employed and tried to forget myself and the future as much as possible. Unless you have been in such a position, it is almost impossible to realize what it means to go to bed and know that perhaps you will never see the morning; to spend a pleasant evening with a friend and know when you part that it may be for the last time. All the thousand and one things that are so dear to us become little things and which ought to be settled upon them for the last time. I used to say that the person most vitally concerned should certainly be told if death were imminent but now I think otherwise. Our bodies are such wonderful things that even the cleverest physicians are sometimes wrong in their predictions, and, in my case, things suddenly take a turn for the better when least expected."

"Somehow my doctors were wrong, and last year the same specialist congratulated me on my wonderful improvement, which was quite unaccountable, and now I have every expectation of living to a good old age. But even now in the silences of the night the old horror comes to me."

"So this is why I say in the great majority of cases people should not know if the long journey is at hand. If there are things which affect the living and which ought to be settled upon them for the last time, it should be told, but in every other case I think it is better to let anyone slip hopefully and unknowingly into the great beyond."

Aside from its contribution to the original subject, I like this letter because of its lesson on the fallibility of doctors.

Doctors are about the finest class of men in the world, but they are men. Therefore fallible. Moreover, I think the average doctor is more inclined to exaggerate than minimize the seriousness of a case. That is perfectly logical and natural. First, because that makes a patient more likely to follow directions; second, as self-insurance in case of a serious outcome; and third, because they get more credit if they do cure.

Courage, then, comrades, don't let the most expensive specialist of the world rob you of hope. While there's life there's hope, and while there's hope there's usually life.

THE TABLE

Baked Bean Soup—Three cups
cold baked beans, three pints of wa-
ter, two slices of onion, two stalks
of celery, one and one-half cups of
stewed and strained tomatoes, two
tablespoonsful of butter, two table-
spoonsful of flour, one tablespoonful
of chili sauce, salt, pepper. Put the
beans, water, onion, and celery in a
casserole; bring to boiling point and
simmer thirty minutes. Rub through
a sieve, add tomato and chili sauce,
season to taste with salt and pepper,
and blend with the butter and flour
cooked together. Serve with crisp
crackers.

Chestnut Stuffing—Three cupsful
of French chestnuts, one-half cup of
butter, one teaspoonful of salt, one
fourth cup of cream, one cup of crack-
er crumbs, one-eighth teaspoonful pep-
per.

Shell and blanch the chestnuts.
Cook in boiling salted water until
soft. Drain and mash using a potato
masher. Add one-half the butter, salt,
pepper and cream. Melt the remain-
ing butter, mix with cracker crumbs,
then combine the mixtures.

Orange Sauce for Meat and Fish—
One-fourthcup of butter, one-fourth
cup of flour, one-third cup of brown
stock, one-half teaspoonful of salt, few
grains of cayenne, juice of two or-
anges, two tablespoonsful of Sherry

wine, rind of one orange, cut in fan-
cy shapes.

Brown the butter, add the flour
with salt and cayenne, and stir until
well browned. Add the stock gradual-
ly and just before serving, orange
juice, sherry and pieces of rind.

Pudding Glace—Two cups of milk,
two thirds of raisins, one cup of sug-
ar, one egg, one tablespoonful of
flour, one fourth teaspoonful of salt,
one quart of thin cream, one-half cup
of almonds, one-half cup of candied
ginger, three tablespoonsful of wine.
Soak the raisins in milk for fifteen
minutes, strain, make a custard of
milk, egg, sugar, flour and salt; cool,
and add the pineapple, ginger cut in
small pieces, nuts finely chopped,
wine and cream; then freeze. The rais-
ins should be rinsed and saved for a
pudding.

Prune Pie—One-half pound of
prunes, one-half cup of sugar, (scant)
one tablespoonful of lemon juice, one
cup of water, one-half cup of butter,
one tablespoonful of flour. Wash the
prunes and soak in enough cold water
to cover. Cook in same until soft.
Remove the stones, cut the prunes in
quarters, and mix with sugar and
lemon juice. Reduce the liquor to one
and one-half teaspoonsful. Line with
paste and cover with prunes, pour
over the liquor dot over with butter,
and dredge with flour. Put on an up-
per crust and bake in a moderate oven.

Stewed Chicken with Onions—
Dress clean and cut in pieces for ser-
ving, two chickens. Cook in a small
quantity of water with eighteen large
young onions. Remove the chicken
to serving dish as soon as tender, and
when onions are soft drain from stock
and reduce stock to one and one-half
cups. Make a sauce of three table-
spoonsful of butter, four table-
spoonsful of flour, stock, and one-half
cup of heavy cream; then add the yolks
of three eggs, salt, pepper, and lemon
juice to taste. Pour the sauce over
the chicken and onions.

TRY THIS ONE.

If you haven't looked for this recipe
you will be glad to have it after you
have tried it. Mix together a cup of
butter, a fourth of a pound of pow-
dered sugar and a pound of flour. Roll
out a quarter of an inch thick, prick
with a fork and bake a golden brown.
This is Scotch short bread. Rice
flour is best for this if it can be ob-
tained.

Peanuts and Rice—Two cupsful of
rice (cooked), cupful of peanut butter,
a cupful of cracker crumbs, one-half
cupful of milk and two eggs. When
the rice is well cooked and salted, stir
in the peanut butter, stirring until well
blended; then add the milk, the eggs
well beaten, and lastly all the crack-
er crumbs, leaving some for the top.
Shape into a roundish loaf, place in a
buttered pan and bake until a gold-
en brown all over. Serve garnished
with parsley.

Nut Mince Pie—Chop two cupsful
of apples, add a cup of nutmeats, cut
fine, a half cup of vinegar, elder, or
any fruit juice, one-half cup of sugar,
one cupful of raisins, cloves, cinnamon
and allspice, with salt to taste. This
will make two pies.

Bran Bread—Sift two cupsful of
flour into a basin, add two cupsful of
bran, two cupsful of sour milk, a cup
of brown sugar, a cup of chopped rais-
ins, a teaspoonful of soda dissolved in
the milk, and half a teaspoonful of
salt. Turn into a buttered pan and
bake one hour in a moderately hot
oven.

Onion and Pepper Salad—Chop six
green peppers and one large Bermuda
onion very fine; add salt, pepper and a
bit of mustard, a cup of olive oil and
the juice of a lemon, well mixed. Add
an inch of preserved ginger cut very
fine. Serve on a bed of lettuce, very
cold.

Scotch Broth—Take the liquor that
mutton has been cooked in, remove
the fat and add turnip, carrot, onion
and a little celery. Boil until the veg-
etables are tender, and serve.

Heart and Home
Problems

Dear Mrs. Thompson: (1) Can you give me the address of an inde-
pendent order of Camp Fire Girls
that was not started by some church?

(2) Is it nice
to let a fellow
kiss you or put
his arm around
you? We are
nearly the same
age.

(3) Now I love
this boy dearly,
but other girls
and even my
sister are jeal-
ous. What can
I do to keep
them from him,
as he likes me
best?

(4) Should a
girl go to col-
lege if her par-
ents can afford
to send her?

ONLY A
SCHOOL GIRL.
(1) I do not know of any, except
those of the Young Women's Chris-
tian Association.
(2) I don't think it's right, my dear,
even if you are the same age.
(3) Why should you mind the other
girls if he likes you? As long as
he likes you best he will prefer you,
but if he doesn't you don't want him
to pretend, do you?

(4) Yes, if she is ambitious to go.

Dear Mrs. Thompson: There is rum-
or going around about me. Of course
it is false. It's a girl I used to go with
has turned out bad.

I am eighteen and go with a young
man twenty-four, who says he cares
a great deal for me. He has asked me
several times to marry him, as my
folks don't treat me very well. But
do you think if he cured for me that
I should let him have me? Please advise
me and bring up things that he
knows hurt my feelings?

I care a great deal for him. He ad-
vises me to leave my folks and go
away from town for about two years
and then marry him. Please advise
me. A CONSTANT READER.
If the rumor is not true you need

not worry about it. If the young man
cares for you and wants to marry
you, he should do it now without wait-
ing for you to wander around the
country for a couple of years. I am
always suspicious of these men who
want a girl to leave home without
marriage.

As to his continually advising you
—it may be well meant, just think
over what he says. See if there is any
truth in it. Be honest with yourself.
If you know in your heart, that he is
right, profit by the advice.

Dear Mrs. Thompson: I expect to
be married soon. Will have a quiet
wedding.

(1) Would it be proper for me to
invite my married friends and not in-
vite their wives or husbands?
(2) Would you suggest a menu for
a wedding breakfast? Can have fried
chicken. Would like to plan the rest
of meal.

(3) It would not be proper to invite
a wife without her husband or vice
versa.

(2) Simple menu for wedding
breakfast:

Shredded Grape Fruit in Sherbet
Fried Chicken Potatoes
Creamed Cauliflower Jelly
Small Pancakes
The Wedding Cake
Coffee Cheese Waters

Dear Mrs. Thompson: (1) I wish to
take a business course and am only
in the seventh grade. Am I far enough
advanced? am a girl of fifteen.
(2) What is good for the hair?
(3) What will whiten the hands?

BLIND EYES
(1) It would be better for you to
graduate from the grammar school.
(2) I don't just know what is the
trouble with your hair my dear. It
should be kept clean and you should
brush it every day with a clean
brush. Brushes and combs must be
kept clean. To make it thicker, rub
a little vaseline into the scalp every
day or two—don't get it on the hair
any more than you can help.

(3) Lemon juice will whiten. Mix
it with a little glycerine so your
hands won't get chapped.

Every Day Talks for Every Day People

BY FRANCES JOYCE KENNEDY.

Friday is one of the busiest days
in the week for the woman who does
all her own work; but as Thursday
afternoon has been devoted to a hap-
py day off duty, you can come to your
work with a bright light and glad-
ness, and a determination to make your
work a pleasure.

If we are not able to get happiness
out of our work, happiness and we are
told. Then let us decide before starting
that we are going to get happiness out
of cleaning our houses on Friday;
cleaning it so splendidly that there
will be no doubt in the mind of friend
John on his return in the evening
that he has won himself the very
best woman in the world.

When one starts the Friday clean-
ing it is a wise plan to have the work
arranged so that they may sweep all
the rooms on one floor at one sweep-
ing. This saves many unnecessary trips.

The same plan works good with the
dusting; washing the windows and
setting the furniture back in place.
Have everything ready before you
start, for you will thereby save your-
self going for things that it is neces-
sary for you to use in cleaning.

A dusting cap and all-over apron is
of course a necessity; you can fashion
these for yourself out of some dark
material, and the simpler the better.
Used, the greater will be your satis-
faction when ironing.

Every magazine advises the use of
light colored aprons; but if you'll notice
a bit farther down the column
they will tell you how to sort your
clothes "when getting ready to send
them to the laundry."

Now as that is just what you and I
are not going to do, isn't it a wise
plan to have some dark-colored aprons
that can be worn more than once
without washing?

By starting as soon as the children
leave for school on our work we can
have all the sweeping done; all of
the wiping up and mopping and dust-
ing. If everything is not back in
place at noon don't be bashful about
asking the children to lend a hand;
it will teach them that there is al-
ways work attached to everything in
this world that is worth while.

Occasionally, change your house
around—no not on the foundation—
just the furnishings. Then you'll
think you're in a new house and this
harmless diversion will help you to
start all over again.

Now this may sound like so much
foolishness to some of the women
who read this, but when you think
that it is the home women who are
the ones that furnish the largest per-
cent to the sanitariums, you can see
that a trick like that will help to
create a change in the home woman's
life is not really as foolish as it
seemed at first sight.

Sometimes, looking at the work in
the morning do you have a tendency
to magnify your tasks; to think that
you never can get through this day's
work today?

If so, just tell yourself that you're
going to be through at two o'clock;
time yourself and if the work looms
big—speed up a bit. As a reward for
an early finish promise yourself an

hour with that favorite book of yours
or that you will answer that letter
to your best friend; the letter that
has lain so long in the desk that
you're ashamed to open the same lest
it reproach you.

Then when you have finished—a
few minutes before time—hurry into
a clean gown, and experience the sat-
isfaction that follows good work well
done.

When you do sit down to read, don't
take all the worry in the world into
the land of your story. If you've
worked well and finished you have
earned the right to read for a while,
for if you devote all your time to the
cleaning of your house, the day will
come when you will be sorry.

Be clean; don't be too clean. "In
all things moderation" can well be ap-
plied to housework.

OLD-FASHIONED COOKING OF
SMALL KANSAS TOWN GOOD

It has been my pleasure for the
past week to visit my cousins in a
Kansas town of about 2,500 popula-
tion. We have been wearing the
summer clothes

with the weath-
er warm and
balmy. But they
are entitled to
it, as I am told
they have had
the hottest
summer ever
known; no corn
for the cattle,
so meat is
scarce and much
of it poor.

Vegetables and
fruits also have
not matured up
to their best,
and careful
planning of
meals with a
knowledge of
foods and food
values is abso-
lutely essential
with such scanty
ty of foods. But with all this I have
never eaten more delicious, well-
cooked meals or been in cleaner
meat markets and grocery stores in
my life. I find Kansas laws are very
rigid along the lines of adulteration
of foods and sanitation.

Very few of the choice cuts of
meats come into this town, so here
is the recipe for a round steak which
we had for dinner yesterday, with
baked potatoes:

Smothered Beef.
Materials—Round steak, two
pounds one and a half inches thick;
flour, one cup; bay leaf, one; small
onion, one; salt and paprika.

Directions—Lay the meat on a
board and pound the cup of flour in
with the edge of a heavy saucer.
Have a good sized spider hot and
cook the sliced onion in a tablespoon-
ful of any vegetable fat. Cook until
a light yellow, remove, lay in the
meat and brown well on both sides.
Put the onions and bay leaf on the
meat, cover entirely with actively
boiling water or stock; cover and
simmer or smother on the back of
the stove or over a very low fire for
one and a half hours season with
salt and plenty of paprika the last
half hour. There is plenty of nice
brown gravy and this is strained
over the meat. I was told that some-
times a carrot or two was added to
this. It was finely flavored and
tender.

New Southern Dish.
Material—Hamburg steak, one

pound; cooked macaroni or spa-
ghetti, two cups; cooked tomatoes,
two cups; onion, one; chopped pars-
ley, one tablespoonful; salt and chilli
pepper.

Directions—Cook the chopped
steak in a spider with a table-
spoonful of bacon fat and chopped onion
for twenty minutes, then add the
remaining ingredients, mix well to-
gether until hot and serve at once.

ORFORDVILLE

Orfordville, Nov. 21.—Dan Mowe transacted business at the county seat on Wednesday evening. John Shafer attended to matters at the depot during his absence.

Chas. Garbutt of Janesville paid a visit to the paternal homestead in the village on Thursday.

Claud Grenawalt carried the mail on Route 24 on Wednesday and Thursday.

Wesley Jones is having a well drilled on a property that he recently purchased. D. H. Rossiter is doing the work.

A "Benefit party" was given to Mrs. Belle McMullen on Wednesday. Many of her lady friends were present and left some substantial tokens of their visit. It is needless to say that the gathering was greatly appreciated.

Thorris Everson, who has been spending the past three or four months in the northern part of the state among the pines, for the benefit of his health, returned home on Thursday.

A. G. Heyerdahl and Oliver Clemenson, two more of the Orfordville nimrods, returned from the north on Thursday morning. It is quite needless to add that they were accompanied by two good sized deer, which indicated that the boys were on to their job.

Miss Sarah White, who has been seriously ill at her home in the village, is slightly improved and her friends now entertain hopes for her recovery.

Undertaker Silverthorn received a telephone call from Atton on Thursday morning that Larry Ward, Jr., had been killed by the train there at an early hour. No particulars were given out, but the supposition is that he attempted to board a moving train going to Footville and in some way missed his footing and was drawn under. He left Footville at three o'clock on Wednesday intending to go to Atton and attend the dance that was to be held there and return the following morning.

MOTHER! IS CHILD'S STOMACH SOUR, SICK?

If tongue is coated or if cross, feverish, constipated give "California Syrup of Figs."

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign of little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomachache, indigestion, flatulency, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy, Mother! A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grownups plainly on the bottle. Remember, there are counterfeiters sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup.

FIVE JANESVILLE MEN ARE INITIATED

Major James A. Fathers Among Those Who Take Degrees as Scottish Rite Masons.
Major James A. Fathers, George W. Allen, F. C. Randall, W. H. Duthie and G. H. Drummond of this city took degrees this week in the order of Scottish Rite Masons, which is celebrating the fiftieth anniversary of the establishment of the Wisconsin consistory at Milwaukee. Gov. F. E. McDevitt was one of the prominent men in a class of 230 upon whom honors were conferred. The fall semi-annual meeting of the consistory ended Thursday night with a reception and banquet for the new members.

TRAINING SCHOOL NOTES.

The principal recently sent out a circular letter calling for the various text books used in the different training schools. Responses have been coming in this week. A circular letter goes out from the training school on Saturday to every rural teacher in Rock county. This letter is made up of several pages, contains suggestions on the teaching of civics, arithmetic, spelling, etc., and it is hoped that such suggestions will prove of enough value to make it practical to send out such a letter about once in two months. Supt. Antisdel encloses a page of "new laws" which teachers need to keep in mind.

On Saturday, Dec. 13, the training school students will serve a dinner to the graduates of the classes of 1912 and 1913. It is expected that nearly every graduate will be present.

The declamatory contest will occur on Dec. 13, the rural teachers and other interested persons being invited to the program. Good music will be furnished and competent judges secured.

Takes your class to as many industrial, commercial and mercantile plants as will welcome your visit, provided you do not go more than once a week on such visits. Make a lesson or two on every plant visited. So save the time of the Education.

Education must be in doing as well as knowing.

Agriculture is the most interesting of all vocations.

The students will have a Thanksgiving program on Wednesday, Nov. 26, following a banquet at 12:00.

Efficiency in schools depends largely on efficiency in school books.

Bulletin No. 18 on "Social and Civic Work in Country Communities" will be used in the training school as a part of the subject-matter for rural sociology.

Several of the training school students have rendered valuable assistance this week in mimeographing circular letters, directing envelopes, etc. This is a part of their contribution to the betterment of rural schools through teacher betterment.

The principal read "The Man and the Books—The Books and the Man" or "The Blacksmith's Story" to the students on Thursday. It is Judge Anthony Donovan's account, in an after dinner speech, of the way he accumulated his fine library, while still a blacksmith. Judge Donovan was a widely-read man who possessed a very good library. This story is good to read to high school students.

Supt. Helen Martin of Walworth county says that of 10 rural schools in her district all have installed heating and ventilating systems.

The entire school went out to the county farm Friday afternoon and the students were shown through the various buildings.

There is no school next Thursday and Friday on account of the Thanksgiving vacation.

Light gymnastics and construction work take the place of spelling and writing during this quarter.

Some observation of the part of the seniors has been begun in the grades.

Some country schools have old, dilapidated, unbridged dictionaries in their stores and buy one or more copies of the new Webster's Secondary School Dictionary. This is a very usable book and strictly up-to-date. A sharp analytical study of words to get exact meanings is a profitable exercise.

Shopiere, Nov. 20.—Fred Humphrey of Janesville is visiting relatives and friends here last week.

Misses Martha and Mary Klingbiel of Janesville spent Sunday at their home here.

Mr. and Mrs. Hoekman entertained their guests from Milton Junction over Sunday.

The M. E. ladies are planning for their annual fair and chicken pie supper Dec. 3rd, Wednesday afternoon at 6:00.

Miss Helen Brand of Janesville spent her Sunday at her home here.

The Beavers will meet at the home of Mr. and Mrs. Simonson Monday evening. After the meeting they will play cards after which an oyster supper will be served.

RURAL CREDIT SYSTEM FOR WISCONSIN.

What the State Is to do for the Farmer.

Wisconsin has taken steps to solve the problem of providing appropriate credit facilities for the landowner. The session of the legislature lately adjourned enacted a land mortgage association act designed to give more currency to the money based on land—the land mortgage. If the enactment of the legislature is realized, farmers and settlers will be able to borrow money upon more appropriate terms. Short time loans with high interest charges and interest rates in vogue in portions of Wisconsin only partially improved, as well as in other states in similar stages of development, are inconsistent with the needs and progress of the farmer, especially the young farmer.

The settler on wild or cut over land, no matter how fertile and productive the soil may be, cannot in three or five years sink the purchase price of his land. All that he can do is to keep his land from being sold at a loss. His progress by renewals and the attendant uncertainties. In many instances the loan is allowed to run on after maturity of the mortgage, if interest payments are not restricted by law, but as often the borrower is required to pay up.

This latter requirement makes necessary the negotiation of another loan, most often through loan agencies, with additional charges and charges and probably increased interest rates. These hardships the borrower must submit to or incur foreclosure. Then, too, under the present system of loading in northern Wisconsin, the settler is required to pay in full at the end of the mortgage period. No privilege of installment payment is accorded the borrower.

Other conditions, detrimental to the progressive development of Wisconsin, arise because of the limited currency of land mortgage securities. Hundreds of settlers locating two, three or four years since on land in one of our fertile northern counties find themselves unduly restricted because of lack of ready money. Their farms, generally, are mortgaged for the purchase price, which was the price of wild or cut over land. Anywhere from twenty to fifty acres have been cleared by the settler during his occupancy, and this improvement has doubled or better than doubled the value of the acres so improved. But even with this increased value—his additional basis for credit the settler finds it difficult to secure a loan commensurate with his security and which will enable him to retire the purchase price liens and furnish him with a balance of much needed capital to equip and stock his farm.

This condition discourages the settler in his undertaking. The returns from the fractional part of his land cleared and under cultivation must go to meet the payments he has obligated himself to make. During the early years of his settlement none of his returns can be applied for permanent improvement purposes. Without an additional loan he cannot acquire horses and other beasts of burden or machinery to lighten his work; he cannot stock his farm and experiment with the encouragement of a monthly or semi-monthly milk or cream check. During this critical period the settler is essentially a disburser without the opportunity of applying a part even of his income to improve and stock his farm and thereby increase his returns.

The State Board of Public Affairs has recently made an investigation in portions of northern Wisconsin and finds the conditions above described to prevail in the districts studied. The investigation further divulges that these conditions to a great extent are the result of inappropriate and inadequate credit facilities. The banks in that section of the state have responded to their capacity to assist the settlers. They rarely make loans running for a period in excess of five years. They are not in a position to sufficiently finance the settler.

What is needed, both banker and settler say, is a system whereby land mortgages can attain a greater currency—a system whereby the mortgage charge can be laid for a longer period of time and can be converted into a security realizable at any time in the general market, thereby bringing money from the overstocked centers to the centers where it is needed and can be profitably used.

The land mortgage association act is designed to meet and satisfy these needs. The act makes possible the granting of loans running from ten to twenty or thirty years in duration. It secures to the borrower the important privilege of making small semi-annual or annual payments on the principal or any part thereof at any interest paying date on or after sixty days' notice. Loans under the plan of this act, so long as the borrower lives up to his obligation, are not subject to recall. With the amortization or installment payment privilege, the borrower, at the end of the mortgage period, has cleaned up both interest and principal. For example, by paying \$48.33 semi-annually, or \$126.83 annually, for a period of twenty years, the borrower can completely wipe out a loan of \$1,000 at 7 per cent interest. Many of the mortgages in northern Wisconsin today, figuring in commissions and drafting of papers, etc., cost the borrower 7 1/2 to 10 per cent interest annually. Interest payments at such rates are as high and in extreme cases, even higher than the amortization or installment payments which in the case of the time wipe out both interest and principal.

PATENTS TO INVENTORS.

Morsell & Caldwell, solicitors of patents, Majestic building, Milwaukee, and Robinson building, Racine, report patents issued to Wisconsin inventors on November 18, 1913, as follows:

Henry Aikens, Brillion, portable container; Ernest Boyer, Cottage Grove, potato planter; Oscar Christenson, Milwaukee, centering-punch; Alfred L. Cramer, Colby, attachment for cattle stanchions; Orville H. Ensign,

being bought by families already familiar with its merits.

Syrup Pepsin is mild, pleasant tasting and non-purging. Mothers give it to tiny infants, and yet it is effective in grownups. It is for everyone who suffers from any form of stomach, liver or bowel trouble, constipation, dyspepsia, biliousness, etc. Its action will so delight you that you will forever avoid harsh cathartics, purgatives, pills and salts.

Families wishing to try a free sample bottle can obtain it postpaid by addressing Dr. W. D. Caldwell, 419 Washington St., Monticello, Ill. A postal card with your name and address on it will do.

Madison, gas generator; Wm. D. Gray and J. G. Hutz, Jr., Milwaukee, belting, sifting and grading machine; Alfred and M. C. Barry, Milwaukee, machine for manufacturing pompos; Christopher K. Murray, Oshkosh, overhead switch; Frank

Pongratz, Warrens, railway tie and fastener; August Rosenthal, West Allis, self-feeder; Clarence M. Taylor, loyal, stage footlighting; Jerry A. Faughn, Montello, hoisting device; Henry J. Wiegand, Milwaukee, limit switch.

How to Overcome a Bad Constipation

There is a Mild Laxative That Will Bring Safe and Pleasant Relief Over Night.

It is only natural that the simplest of ailments should be the most general, and so we have a whole nation suffering from constipation and indigestion, for they are closely allied. But common as constipation is many people do not seem to know they have it. They will complain of headache, drowsiness or biliousness, all unconscious of the cause of the trouble.

You should have a full and free movement at least once a day. If you pass a day you are constipated, and the result will be that you will catch a cold easily or have a more serious ailment. To cure the constipation and forestall still graver trouble take a dose of Dr. Caldwell's Syrup Pepsin at night before retiring and by morning relief will come, without disturbance from sleep or any inconvenience.

Legions of people use it regularly in such emergencies, some of them formerly chronic invalids who had suffered from constipation all their lives. Mrs. N. Frantz, 67 Eighth St., Salem, Ohio, took physics for years, and, worst of all, without much avail. Finally she began to take Dr. Caldwell's Syrup Pepsin and today she is no longer troubled and eats what she likes. Many others will tell you that they have tried most things recommended for this purpose but have found Syrup Pepsin the only one that is always reliable. A bottle can be obtained at any drug store for fifty cents or one dollar, the latter size being bought by families already familiar with its merits.

On the Spur of the Moment

Your Best Friend,
Spur of the moment
Don't you know what
People say:
Makes no difference,
Anyway.
Map you route an'
plus along.
Lift yo' voice in
Cheerful song,
Don't be grouchy,
Don't you mope,
While that's life yo'
know that's hope.
Play yo' own game,
Play it right;
Let the others
Fuss an' fight.
Mine yo' business,
But will keep
You plumb busy
An' you'll reap
One fine harvest
Without end.
Yo' must be yo'
Own best friend.

Can't Please 'Em.
In summer we long for the days in the fall when the heat and the dust have departed; the time when the swarms of flies will have ceased, and the ice on the lake is well started. We long for the crack of the fire in the grate and the glare of the homely baseburners; the time when the odors from the kitchen suggest the roasting griddle and turner. We long for the day when the mercury says that the temperature's down below freezing; when the frost puts a crimp in the suffering and lears that come with hay fever and sneezing. We long for the day when we'll cease to perspire, when the sun will dispense with its frying; when the lid will be clamped on the mowing of lawns, and the leaves on the trees will be dying. We'll long for those days till their cold biting blasts cause our bodies to call for more covers; then we'll pine and we'll sigh for the days by and by when we won't have to shiver and hover.

OH! YOU HAVE SUCH BEAUTIFUL HAIR!
What a pleasant thing to have said to you! And why shouldn't it be? You who envy others their lovely hair, and are ashamed of the dull, lifeless, stringy appearance of your own—use Harmony Hair Beautifier, and let others envy you.

This delightful liquid seems to polish and brighten the hair, giving it that burnished, lustrous look you have so often wished it might have, adding to its softness, making it easier to put up and "stay put"—making it more attractive and beautiful in every way. It overcomes the unpleasant, oily, smelly odor of the hair, leaving it dainty, rich, rose perfume that will delight you and those around you. Very easy to apply—simply sprinkle a little on your hair each time before brushing. Contains no oil; will not change the color of hair, nor darken gray hair.

To keep hair and scalp dandruff-free and clean, use Harmony Shampoo. This pure liquid shampoo gives an instantaneous rich lather that immediately penetrates to every part of hair and scalp, insuring a quick, thorough cleansing. Washed off just as quickly, the entire operation takes only a few moments. Can't harm the hair; leaves no harshness or stickiness—just a sweet cleanliness.

Both preparations come in odd-shaped, very ornamental bottles, with sprinkler tops. Harmony Hair Beautifier, \$1.00. Harmony Shampoo, 50c. Both guaranteed to satisfy you in every way, or your money back.

GAUGE FOR HINGE FITTING
Marks Place for Mortises Automatically and Accurately.

One of the most ingenious of the new carpenter's tools is the hinge gauge patented by an Illinois man. A long bar with an end plate at the top has four slideable gauges mounted on it. To use this instrument, the carpenter fastens the hinges on the door and then ranges the bar along the edge of the door with the end plate resting on the top. He then adjusts the gauge points at top and bottom of the hinges and thus has an accurate measurement of the mortise required and the distance they must be from the top of the door frames, as well as the distance apart. The bar is then placed against the door frame so that the end plate fits snugly at the top, and the markings for the mortise made by drawing lines inside the gauge points.

AN ODD VEHICLE
Wheels Revolved by Stamping Up and Down on Pedals.

An Illinois man has designed an odd-looking vehicle and just what purpose it will serve is a problem, unless it can be used by invalids. A small platform has a post rising from the back with a seat on it and a steering post rising from the front, the latter operating a guide wheel. Two larger wheels are mounted beneath the platform and between them is a drum with a ratchet mechanism in it. Treadles

rise through the platform and by pedaling on these the ratchet mechanism is set in motion and the wheels revolved. The vehicle works on the same principle as that old-fashioned type of bicycle that was driven by pushing up and down instead of by driving pedals that revolved around the sprocket wheel, as all do now. With this apparatus a man can walk about

Ponderous Personages

By GEORGE FITCH, Author of "At Good Old Slawaz."

THOMAS A. EDISON is one of America's greatest men. He was not elected to this position nor did he obtain it by guessing which way the prominent railway stock might jump. Other American giants may fail to receive a majority and shrink into common tax payers; they may absorb one railway too many and retire to obloquy a few jumps ahead of the grand jury. But Edison goes placidly on increasing his size each year; and he will continue to do so as long as electricity enjoys the popularity which it does at the present time.

Edison started life selling peanuts on the Grand Trunk railway at the age of twelve in 1859, from which, with the aid of mathematics in its present highly perfected state, we may easily deduce the fact that he is now sixty-six years of age. He published a newspaper at the age of fifteen and learned telegraphy a year later, but lost many jobs because of his fondness for reading while some operator at the other end of the line was frantically pounding away in an effort to attract his attention. In fact, at this period Edison was so unsuccessful that he had to take up inventing. The field was remarkably broad at that time, very few things worth while having been invented and Edison was soon busy day and night. He invented the telegraph repeater and the stock ticker, and sold them for a small fortune. This was the most perilous point in Edison's career. But he passed

safely through it. He did not buy an automobile, so he Europe or establish his family in society. He did not buy a carload of assorted mining stock or go to New York and try to put a permanent crimp in Wall Street. Instead, he took his \$40,000 and went to New Jersey, which at that time was infested with nothing worse than mosquitos. There he built a laboratory and began to work up an intimate acquaintance with electricity, which was then almost a stranger in our midst.

Edison has remained in New Jersey ever since. He has made three hundred inventions, including the phonograph, the telephone transmitter, the microphone, the megaphone, the incandescent lamp, the moving picture and the four distance storage battery. He has become very rich indeed, but this is not often mentioned. He is more interesting than his bank account.

Edison was never elected to any office. Nobody knows what clubs he belongs to. He does not play golf, and few people have seen him in evening clothes. He is a genius, and the proof of it is that he works for twenty hours a day for long stretches.

In 1876, says his biographer, Edison's health failed. This is important information, and thousands of Americans would give much to acquire the same brand of rickety health. A busted constitution which was his own hap, and busy twenty hours a day for forty years is a boom greatly to be desired.

Buttons Deliberately Came Off.
Harry, age four, was investigating mother's sewing basket while she was busy. Mother told him not to take the buttons off the card, as they would be lost. The little boy continued to play with them, however, and some of the buttons came off the card. "Harry, I told you not to take the buttons off the card. Now you have disobeyed me." "But, mother," said Harry, "I didn't take 'em off. They isthliberty came off!"

Coal Consumers Organize.
Recent developments in the coal situation in the Philippines, including a shortage in the supply of fuel for the archipelago during the last few months and the increasing use of fuel in the islands for industrial purposes in which fuel costs are of prime importance, have led to the organization of an association of large coal consumers in Manila, which is likely to be of great importance in industrial matters in the far east.

CONSTITUTIONALISTS GAIN CONFIDENCE; DRIVE HUERTA FROM NORTHERN MEXICO

Gustavo Madero (left) and General Pancho Villa.

The recent notable victories of the Constitutionalists, including the capture of Juarez, have practically driven Huerta from north Mexico. Carranza and his staff are now planning to capture all the important cities along the border line. Two of Carranza's right-hand men in the struggle now going on are Gustavo Madero, brother of the late president, and General Pancho Villa, who led the successful attack on Juarez.

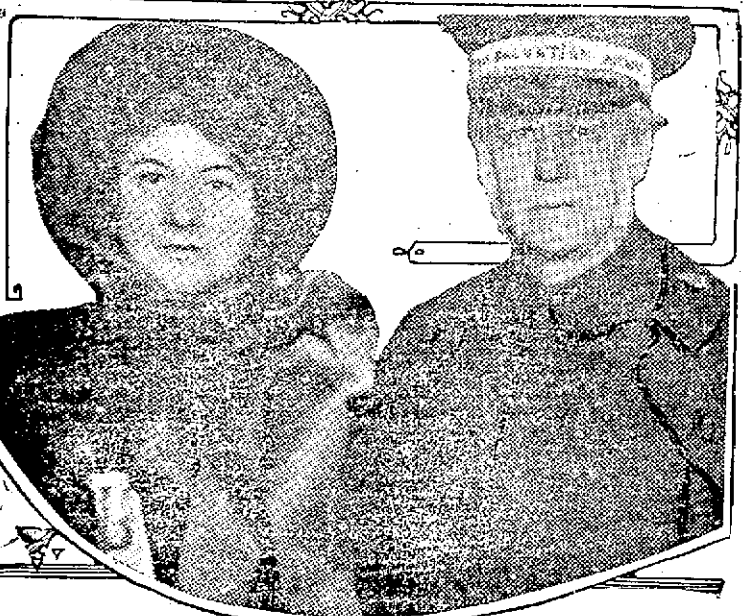

NEW YORK WOMAN AN AUTHORITY ON THE CONDITION OF THE COTTON CROP

Miss Katherine M. Giles.

To be able to figure almost to a certainty just how much cotton will be raised during the year is the business of Miss Katherine M. Giles of New York, who has the distinction of being the only female cotton statistician. Seven years ago her name became famous when it was flashed over the wires of the stock exchange as the authority on the condition of the cotton market. So dependable are her reports that Uncle Sam himself calls on her for statistics.

NEW SALVATION ARMY HEAD, NOW IN THE U. S., DIFFERS RADICALLY FROM FATHER

Evangeline Booth and General Bramwell Booth (taken in Chicago).

Never were two men less alike in appearance and in manner than General Bramwell Booth, present head of the Salvation Army, and his father, William Booth, who founded the organization and for fifty years ruled with despotic sway. Where the father was angular and hard, with the head of a grim old eagle, the son is round, almost plump, with a smooth, round face and unimpressive features. The father was positive, dictatorial, a fiery old crusader; the son is a trained and capable executive, suave, efficient and tactful.

VACUUM GOOD FLY CATCHER

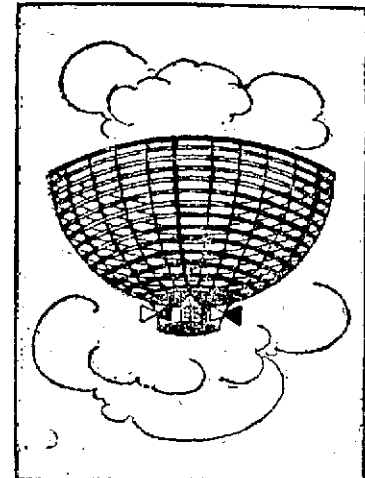

Insects Are Sucked Up Pipe and Caught in Traps—Eliminates Much Danger of Disease.

The limit of uses to which a vacuum apparatus may be put seems to be boundless. Here is a plan by which it catches flies. A pipe leading from the vacuum tank is suspended across the room horizontally with a series of funnels depending from it. One funnel can be hung over a table, for instance, and another over the window sill. As the flies enter the window those that come across to the funnel are sucked up into the pipe above. For those that escape, a bait of bread and molasses is set on the table below the mouth of the second funnel. When the insects make for this feast they are whirled up into the opening above as soon as they come within the radius of suction. Valves at the top of the funnels close down when the vacuum motor is shut off and the traps can be removed and immersed in scalding water to kill the captives. People who think this is taking a lot of trouble about nothing should read some of the government and municipal literature about the danger of the fly as a carrier of disease germs.

FLYING MACHINE MADE ODD

Huge Bowl-Shaped Supporting Body Driven by Propellers—Not Broken Any Aviation Records.

An odd type of flying machine has been patented by an Ohio man, but so far as is generally known it has not yet set any new records in aviation. It consists of a supporting body that resembles a huge wicker bowl, or a bi-sectioned balloon, and attached to this is a car which contains the motor and two propellers at opposite sides. Presumably the machine is driven up by the propellers, the open structure affording little resistance to the air, and

Odd Flying Machine.

when a sufficient height has been reached the light machine is supported by the air beneath and sailed in any direction desired by the propellers, being steered by them at the same time. For instance, to turn to the right, increase the action of the propeller on that side. Just at present a different type of airship is in fashion, but there is no telling what the Ohio genius' bowl may do when perfected.

Practical.

DON'T DOPE A PUNY CHILD

Parents—don't give that puny, ailing, under-weight child any of those so-called "tonics" containing alcohol or dangerous drugs; such stuff won't give relief and lead to health problems for your children. Its purpose is to stimulate for a short time after each dose, just as whiskey or morphine does, thus making you believe it is doing real good.

Give that child something that will really build it up—replenish the wasted tissues—feed the stunted, dwarfed, puny muscles—make it lively, strong, well—full of the animal spirits children are meant by nature to have. Give it **REXALL OLIVE OIL EMULSION**.

Rexall Olive Oil Emulsion is wholesome, nourishing, free from alcohol and dangerous drugs. It's the ideal nerve, blood and body builder. It does the work it is planned to do better than any other medicine we know of, and our faith in it is so great that we not only urge you to use it and give it to your children—but we guarantee that it will do all we say it will, or cost you nothing.

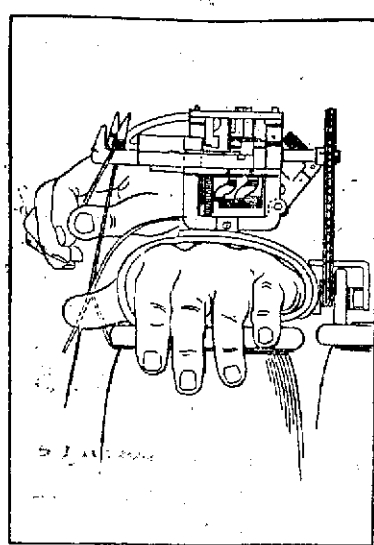

Rexall Olive Oil Emulsion should be given to children who catch cold easily. Begin right now, and use it to build up the child's system to such strong health that it can resist colds, croup, grippe, bronchitis, catarrh, pneumonia and other cold weather diseases. You who are weak and run-down, and you who are well now, but are liable to suffer from various cold weather ailments, use Rexall Olive Oil Emulsion to get and keep well and strong. For the tired-out, run-down, nervous, emaciated or debilitated, the convalescing—growing children—aged people—it is a sensible aid to renewed strength, better spirits, glowing health.

Rexall Olive Oil Emulsion—king of the celebrated Rexall Remedies—is for freedom from sickness of you and your family. You'll be as enthusiastic about it as we are when you have noted its pleasant taste, its strengthening, invigorating, building, disease-preventing effects. If it does not help you, your money will be given back to you without argument. Sold in this community only at our store—The Rexall Store—one of more than 7,000 leading drug stores in the United States, Canada and Great Britain. Smith Drug Co., 14 W. KNOT-TYING MACHINE

Thread Caught in Bill and Knotted By Revolution Thereof.

The machine in the illustration seems like an elaborate apparatus to do no more than tie a knot in a thread, but that is what an Illinois man invented it for. Furthermore, it is often the things that are easiest to do by hand that require the most complicated machinery to do automatically. A rotatable tying bill, that is alternately open and closed, has a stationary thread guide at opposite

PRESS DOWN TO WORK IT.

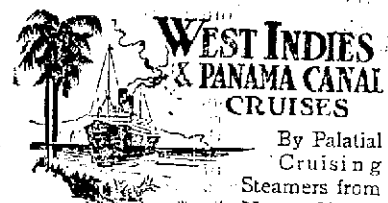

sides of it. This bill makes three revolutions when pressure is brought to bear on the lever at the bottom, through which the operator thrusts his or her left hand. After the completion of one revolution the cables aforementioned lead the thread into the open bill, which closes upon it, carries it through the other two revolutions and knots it.

Beyond Concrete Calculation.

It is generally believed that the word "Hoosier" is of southern origin, at first applied to any uncouth person from the west, but it was finally localized for Indiana, where it was adopted as a badge of distinction.

Mizpah.

The word Mizpah or Mizpeh, is Hebrew, and means "Watch Tower." For example, see Genesis 31:49, where we read, "And Mizpah, for he said, the Lord watch between me and thee, when we are absent one from another." For additional light on the subject you may look at Judges 10:17; 11:11; 20:1. Also I Samuel, 7:5; 10:17.

Filled With the Spirit

By REV. JAMES M. GRAY, D.D.
Dean of Moody Bible Institute of Chicago

The Holy Spirit is not a thing or an influence, but a divine person, because in the holy scriptures there are ascribed to him the works, attributes and names of a person. This divine person dwells in true believers on Jesus Christ. He acts upon them not as a power from without, but as a living reality within.

In "What, knew ye not that your bodies are the temples of the Holy Ghost, which is in you?" It is also true that when he comes to dwell in the believer, as he does at his regeneration and conversion, he comes to dwell in him forever.

But it seems to be one thing to be indwelt by the Spirit, and another to be filled by him, a distinction met with again and again in the New Testament.

Filled With the Spirit.

The strong figure used in this chapter gives an idea of what is meant by being filled with the Spirit. A man intoxicated with wine is under control of that which has entered into him. His countenance, his walk, his breath, his conversation, his thought, give evidence of it. So are Christians to be filled with the Holy Spirit that their very faces may declare that they "have seen the face of God." Their conduct should be governed by him, their steps directed, their thoughts controlled by his influence and gracious power.

This brings us to the apostle's practical application of this truth, telling us that when so filled we will manifest the spirit of submissiveness one to another in the fear of God. Wives will be submissive to their husbands as unto the Lord, and husbands will love their wives as their own bodies and as Christ loved the church. Let the right spirit take possession of husband and wife and domestic infelicity is at an end, but the right spirit is only and always God's Holy Spirit.

Children and parents are next addressed. The child who knows the Lord, and in whom his spirit dwells, will obey his parents because it is right to do so. And parents in such a case will not provoke their children to wrath, but "bring them up in the nurture and admonition of the Lord."

Solution of Industrial Wars.

Employers and employees come next. The employee who knows Jesus Christ will serve his employer faithfully because he will be serving Christ. There will be no more eye-service there. He will not be looking at the clock for quitting time, nor loafing when the foreman's back is turned. He is aware that another is keeping the record whose eye is everywhere, and that of him he shall receive the reward.

But the employer who knows Jesus Christ will act toward his employee correspondingly. He will not be a hard, unappreciative master, knowing that he himself has a master in heaven who is no respecter of persons. Here is the solution of industrial wars. The gospel can do what unions and amalgamations and strikes and lock-outs can never do. The truest patriots and philanthropists are the men and women in our pulpits, our mission halls, and on the street corners testifying to the saving and keeping power of the Son of God.

In other words it is not "social service" that the world so much needs today as it is salvation. The "social service" movement is good, and has a large constituency and large financial support. Several well-known millionaires have each given a larger sum within a few years, for educational and philanthropic enterprises than all which is spent annually for the support of the whole number of Christian churches in the United States. Organizations and agencies for social betterment are multiplying today to a bewildering extent. There is an agency to meet almost every kind of distress of man, woman or child, we are glad of it, but as a careful and wide observer has affirmed, "the more closely the facts are examined the more apparent the inadequacy and ineffectiveness of the measure thus employed." And he goes on to ask, "As the limitations of social effort thus become more sharply defined, is it out of place to suggest that there may be a factor in the problem of great significance which has been almost entirely neglected?" That factor, we believe, is the gospel of Jesus Christ. Bring men to Christ, and let his Spirit fill them, and all our problems are solved.

A man and a nation deteriorate when they lower their standard of right and wrong, when they sacrifice their principles to expediency.—Derek Vane.

JOSHUA, THE NEW LEADER

(The Story.)

The generation of the Exodus was dead, but the incalculable gains of its travail in the wilderness were transmitted to the new generation, which stood on the threshold of Canaan, ready to receive as a legacy an ethical code, a ritual, a theocratic government, and the story of the wonders God did in the wilderness. But the time when Israel was to be chiefly receptive was past. With a spoiled and careless generation, the nation was on the point of projecting itself into a new arena. "Conquest" was the keynote now. In this emergency situation the call was for a great, determined, faithful, inspirational leader. Joshua was Jehovah's savior for his people. Good blood coursed his veins. He had drunk the bitter cup of servitude. He saw the plagues and the miracles of the Exodus. He knew the voice of Sinai. He alone went part way up Sinai with Israel's mediator, and was first to greet him as he descended the mount. He learned the art of war. He had already conquered the whole territory east of the Jordan, and installed the two tribes and the half tribe in their possessions. Thus it was no novice who was stepping to the fore in this crisis hour. With quiet dignity and consciousness of his personal mission, Joshua took up the reins of government as the natural successor of Moses. His very first move proves him an experienced commander. He seeks a full quota of troops, and makes an appeal for fraternal assistance. The tribes and the half tribe, asking them to redeem their pledge to help the other tribes conquer the remaining territory. Next he turns his attention to the commissariat. He sends spies to reconnoiter the land, and to "prepare victuals." Next he sends spies to Jericho, which he recognizes as the Gibraltar of Canaan. The divine address to the new leader has been applied. The commission is given. The formal announcement of Moses' death is suggestive that a new type of leader is required. Jehovah orders the crossing of the Jordan and the invasion of Canaan. Comforting assurances are given. The boundaries of the territory to be conquered are defined. The divine constancy to Moses is cited as a pledge of similar constancy to Joshua. Only so he is to be strong and courageous. These are not vague terms. It is not strength and firmness in general. Joshua is to have, but strength in the hands and firmness in the knees. He is to be strong to grasp the sword and to withstand the enemy's assault. And the source of strength is found in the Scriptures. It is to be Joshua's meditation day and night. It is to be the man of his counsel, he will be strong and courageous. He is to be dismayed for the constancy of the Divine Presence is assured.

THE TEACHER'S LANTERN.

A new book of the Bible opens: Joshua, so called, not on account of authorship, but because of the hero, who stands against the narrative like a bold front, came nearest its back ground. It is possible the book has suffered to some extent by its rather arbitrary exclusion from the first division of Scripture—Pentateuch—of which some believe it was originally a part. The contents are for the most part a stirring narrative of the conquest and division of Canaan, and an extremely accurate description of the land. Yet the book is probably not the continuous composition of one writer so much as a collection of historical notices, edited with admirable skill. The framework and interpolations, however, are not completely covered by the editor. Moses, the Lord's servant, was dead. There was a great gap. By whom could a vacancy like that be filled? So today, in national and world movements, leaders are failing. If one great personality, however, is to come to the front, there must be augmented diligence among the survivors. The assurance of the divine presence was to be no premium on inactivity. The Lord's command is: "Over Jordan!" His people press the roles of their feet upon the soil of the land of promise before God will give it to them. If we do our part, and are faithful to bring us also to the heavenly Canaan. In the struggle for the maintenance of religion, all fac-

So-Called "Incurable" Hearts Often Cured

By the Great Specialist in Treating Weak and Diseased Hearts, FRANK LIN MILES, M. D., LL. B.

Who Will Send \$2.50 Worth of Special Treatment and New Book Free.

To prove the remarkable curative powers of his new and complete special treatments for heart disease, short breath, pain in side, shoulder or arm, oppression, irregular pulse, palpitation, smothering, puffing of ankles, or dropsy, Dr. Miles will send to every afflicted person a \$2.50 "Free Treatment." Bad cases soon relieved.

These treatments are the result of 20 years' extensive research and remarkable success in treating various ailments of the heart, lungs, and nerves, which often complicate each case. So astonishing are the results in most cases, that he offers all sick persons a two-pound Trial Treatment free. Do not fail to try it.

Certainly nothing could be more generous. Few physicians have such confidence in their treatments. All afflicted persons should avail themselves of this liberal offer, as they may never have such an opportunity again. Delays are dangerous. No death comes more suddenly than that from heart disease.

Send for Remarkable Cures in Your State.

Mrs. Sarah Thomas, Mpls., cured after 5 physicians failed. Mr. John Sime, Lincoln, Kans., after 3 failed. Mrs. P. W. Ryan, Sumner, Iowa, after 3 failed. Mr. J. A. Baker, Princeton, Ill., after 2 failed. Mr. H. L. Davenport, Cambridge, Pa., after 4 failed. Mrs. Lizzie Ewing, South Charleston, Ohio, after 2 failed. Mrs. Anna Clark, Houston, Tex., after 7 failed. Mrs. Eva Leach, the Guy's Mills, Pa., after several failed. Many cured by 1 to 2 physicians had pronounced them incurable.

Send to Dr. Franklin Miles, Dept. 116, 711 to 723 Main St., Elkhart, Ind., at once, for Free Heart Book, Examination Chart, Official Advice, and Free Treatment. Describe your disease.

tions should, is possible, be enlisted and fused. Protestants, Catholics, Jews, theists generally, should come together in the conflict with materialism and atheism. Canaan (Rest) was a beautiful type of heaven, having almost innumerable points of likeness. Heaven is the antitype, that true and lasting rest, which remains for the people of God. The Bible for a long while alone preserved the record of the Hittites among the nations, and it was supposed by hostile criticism to be in error in exaggerating the importance of what was judged to be a small tribe. Recent explorations and discoveries confirm the Bible, and show the Hittites to be a powerful nation, the dominant one of Syria, exercising an influence even upon Egypt and the East. To afford rest is a very beautiful and significant phrase. It means to cause to rest in a secure dwelling-place, after the long and restless wandering through the wilderness. In dangerous duties and circumstances there is no better comfort than when one has a call to the position from God. The first revelation of God after the death of Moses installs Joshua formally in his office, gives him double commission; to lead the people into the promised land, and to distribute this among them; renews the assurance of divine aid, and admonishes to steadfast fidelity toward God's law and imperishable confidence in him. Could anything be more comprehensive or apt?

Discontent or Praise: Which Is Your Life?

(Thanksgiving Meeting)
It is said of Peter and his denial that "When he thought thereon, he wept." But reflection is not only the cause of repentance, it is the cause of praise. Thinking of the goodness and mercy of God opens one's lips in thanksgiving. It is reflection that strikes the keynote. Meditating on the Lord's goodness and the staying quality of his mercy and truth in what leads to seeking his gates with thanksgiving and his courts with praise. Mere periodic and verbal thanksgiving is a clanging cymbal.

CLINTON

Clinton, Nov. 20.—Mrs. Crawford will entertain her Sunday school class of young ladies to tea Saturday afternoon. Mrs. Crawford has a very interesting class of extremely interesting young ladies.

Miss Charlotte Bennett had her right shoulder broken Sunday night on the road just east of Delavan. Miss Bennett, Miss Pauline Ruch and Mrs. Mayme Fredendall Payne were on their way to Elkhorn in a buggy when in turning in the road the buggy upset, throwing all out, with the disastrous results noted to Miss Bennett. The accident is extremely unfortunate as the sufferer has been a cripple all her life and compelled to spend all her time in a wheeled chair. Dr. Parker was called upon their arrival back to Clinton early Monday morning and he took the unfortunate girl to the hospital at Beloit. It is a very bad fracture at the joint.

Born to Mr. and Mrs. Gus Steigmann, last Thursday, a fine boy. F. W. Christman of Seattle, Wash., nephew of Wellington F. Christman of this place, who died in Seattle, will be brought here for burial tomorrow (Friday) afternoon at 3:00 o'clock after services at the home of his father near Shoreline. The Masonic lodge, of Clinton will have

charge of the services at the grave. Born to Mr. and Mrs. Frank Propst last Monday, a week ago, a fine baby girl.

Mrs. Clarence W. Collier visited relatives at Rockford last Friday and Saturday.

A very distressing accident occurred at the wood working department of the Creamery Supply Bldg. Company's plant, yesterday afternoon, about three o'clock, Florence Woot, about three o'clock when F. Woot, plant but a few days ago, got his left hand in the buzz-saw, taking the third finger entirely off and very badly lacerating the other fingers and thumb so much that it may be impossible to save another finger. The unfortunate fellow has just recently immigrated to this country from Belgium and is practically homeless and friendless except what few of his countrymen as reside here.

Daughter Was Curious.
Invited out to dinner, mother stood before the mirror, and, having made her yellow locks a trifle yellower, she proceeded to apply the pencil to her eyebrows. The little daughter stood by and wondered. Finally she asked: "Mother, what are you writing on your face for?"

PAPE'S DIAPEPSIN WILL DIGEST FOOD WHEN YOUR STOMACH CAN'T—IT'S GREAT

Stops Indigestion, Sourness, Nausea, Gas, Dyspepsia in five minutes—Fine for Stomach.

If you feel bloated after eating, and you believe it is the food which fills you, if you have little or no gas, if you have a lump of lead on your stomach; if there is difficulty in breathing after eating, eructations of sour, undigested food and acid, heartburn, brash or a belching of gas, you need Pape's Diapepsin to stop food fermentation and indigestion.

It neutralizes excessive acid, stomach poison; absorbs that misery-making gas and stops fermentation which sours your entire meal and causes dyspepsia, Sick Headache, Bloating, Constipation, Griping, etc. Your real

and only trouble is that which you eat does not digest, but quickly ferments and sours, producing almost any unhealthy condition.

A case of Pape's Diapepsin will cost fifty cents at any pharmacy here, and will convince any stomach sufferer in five minutes that Fermentation and Sour Stomach is causing the misery of indigestion.

No matter if you call your trouble Catarrh of the Stomach, Nervousness or Gastritis, or by any other name—always remember that relief is waiting at any drug store the moment you decide to begin its use.

Pape's Diapepsin will regulate any out-of-order Stomach within five minutes, and digest promptly, without any fuss or discomfort, all of any kind of food you eat.
